Acronym Guide

ADA	Americans with Disabilities Act
CAPS	Childcare and Parents Services
CEDS	Comprehensive Economic Development Strategy
CLEO	Chief Local Elected Official
CNC	Computer Numerical Control
CRM	Customer Relationship Management
DECAL	Georgia Department of Early Care and Learning
DHS	Georgia Department of Human Services
DVOP	Disabled Veteran Outreach Program
EDA	US Economic Development Administration
EEO	Equal Employment Opportunity
EMC	Electric Membership Corporation
ESL	English as a Second Language
ETPL	Eligible Training Provider List
GDEcD	Georgia Department of Economic Development
GDOL	Georgia Department of Labor
GED	General Educational Development test
GMA	Georgia Manufacturing Alliance
GMRC	Georgia Mountains Regional Commission
GMWDB	Georgia Mountains Workforce Development Board
GOSA	Georgia Governor's Office of Student Achievement
GVRA	Georgia Vocational Rehabilitation Agency
HDCI	High Demand Career Initiative
IET	Integrated Training and Education
ITA	Individual Training Account
IWT	Incumbent Worker Training
LEO	Local Elected Official

LTC	Lanier Technical College
LVER	Local Veteran Employment Representative
LWDA	Local Workforce Development Area
MDC	Manufacturing Development Center
MOU	Memorandum of Understanding
NGTC	North Georgia Technical College
OJT	On-the-Job Training
RFP	Request for Proposal
RING	Rehabilitation Industries of Northeast Georgia
SNAP	Supplemental Nutrition Assistance Program
SWOT	Strengths, Weaknesses, Opportunities and Threats analysis
TAA	Trade Adjustment Assistance
TANF	Temporary Assistance for Needy Families
TCSG-OAE	Technical College System of Georgia's Office of Adult Education
TCSG-OWD	Technical College System of Georgia's Office of Workforce Development
TOPPSTEP	The Offender Parolee Probationer State Training Employment Program
TVA	Tennessee Valley Authority
UI	Unemployment Insurance
USG	University System of Georgia
WARN	Worker Adjustment and Retraining Notification
WIOA	Workforce Innovation and Opportunity Act
WSGM	WorkSource Georgia Mountains
WSP	TANF's Work Support Payments program

1.0: Strategic Elements, Governance and Structure

1.1: Identification of the Fiscal Agent

Provide an identification of the entity responsible for the disbursement of grant funds described in WIOA § 107(d)(12)(B)(i)(III) as determined by the chief local elected official.

The Local Elected Officials (LEO) Board of the 13-county WorkSource Georgia Mountains (WSGM,) Workforce Innovation and Opportunity Act (WIOA) Area 2 designated the Georgia Mountains Regional Commission as the entity responsible for the disbursement of grant funds.

The Georgia Mountains Regional Commission (GMRC) is a sub-state district created by local governments in 1962 under provisions of Georgia Enabling Law. The purpose of the GMRC is to locally promote and guide proper development of proper development of human, natural, physical, social, and economic resources within Georgia Mountain's 13 counties. The GMRC is guided by a forty-four (44) member Council and is composed of individuals appointed by the Governor, Lieutenant Governor, Speaker of the House of Representatives, as well as one county elected official, one city elected official, and one private sector individual from each of the 13 member counties. City, Council, and private sector representatives are chosen by the cities and counties they represent. The GMRC Council is responsible for all policy decisions.

1.2: Description of Strategic Planning Elements

Provide a description of the strategic planning elements listed below. A complete answer will rely on a variety of data sources and employer input. Also describe how the information was gathered and what partners and employers were consulted.

The analysis in this section was completed in March and April of 2020, using data available through March of 2020. As circumstances are changing rapidly due to COVID-19 causing potentially severe impacts for certain industries and employment rates, there is potential for significant impacts to the estimates and projections utilized and to workforce needs over the next four years. The Georgia Mountains Workforce Development Board (GMWDB) and WorkSource Georgia Mountains are prepared to respond to these changes in the economic environment and will continue to provide quality workforce and business services to all eligible jobseekers.

1.2.a: Provide an analysis of the regional economic conditions including existing and emerging in-demand industry sectors and occupations; and the employment needs of employers in those industry sectors and occupations. Include the listing of occupations in demand within the region and describe how the list was developed citing source data.

An analysis of Georgia Mountains Area 2 offers a picture of diversity in geography, workforce composition, employers, and industry sectors. Georgia Mountains Area 2 covers approximately 3,500 square miles and has a current population just over 719,000 people. Some of Georgia Mountains Area 2's counties are among the fastest growing in the United States, and all have experienced recent positive growth.

Over the last generation, Georgia Mountains Area 2 has transformed itself and the local economy from an area heavily reliant on agriculture and traditional manufacturing to a more diverse economy with industry growth in healthcare, tourism, logistics and distribution, advanced manufacturing, retail, and a variety of other industrial and high-tech companies. Georgia Mountains Area 2 continues to experience strong economic conditions with sustained success and expansion in a number of local demand industry sectors.

Table 1.1: Area Profile for Georgia Mountains Local Workforce Development Area, GA

Area Labor Force, Employment and Unemployment Data Table

January 2020				
Area	Civilian Labor Force	Number Employed	Number Unemployed	Unemployment Rate
WorkSource Georgia Mountains	353,902	343,371	10,531	3.0%
Georgia	5,157,403	4,979,349	178,054	3.5%
United States	163,497,000	156,994,000	6,504,000	4.0%

Source: GA Dept. of Labor, Workforce Statistics & Economic Research, Local Area Unemployment Statistics Unit

Table 1.1 above demonstrates the strong labor market within Georgia Mountains Area 2. As of January 2020, Georgia Mountains Area 2's unemployment rate is lower than both the state and national rate for the same period.

Table 1.2 demonstrates the current in-demand occupations as identified by Burning Glass Labor Insight, demonstrating a variety of demand occupations in industries ranging from transportation and trucking to healthcare to retail.

Table 1.2: Total In-Demand Occupations April 2019 - March 2020

Table 1.3 below demonstrates projected regional growth by occupations between 2016 and 2026. The table focuses on the top 25 growth occupations and shows some similarities with Table 1.2. The five occupations that are projected to see the greatest absolute growth are:

- Cashiers (2,067 annual openings)
- Combined Food Preparation and Serving Workers, including Fast Food (1,798 annual openings)
- Retail Salesperson (1,480 annual openings)
- Laborers and Freight, Stock, and Material Movers, Hand (1,436 annual openings)
- Office Clerks, General (767 annual openings)

Unfortunately, many of the top 25 occupations by annual openings are in the retail and food services industries, which remains a large portion of Georgia Mountains Area 2's economy. These industries typically provide jobs with wages below the standard living wage and offers less advancement opportunities. Therefore, these industries will not take priority in GMWDB's workforce system strategy.

Table 1.3 Area Profile for Georgia Mountains Local Workforce Development Area,
Occupations by Projected Growth Table

Rank	Occupation	2016-2026 Annual Avg. Percent Change	Annual Openings
1	Cashiers	1.12%	2,067
2	Combined Food Preparation and Serving Workers, Including Fast Food	1.92%	1,798
3	Retail Salespersons	1.98%	1,480
4	Laborers and Freight, Stock, and Material Movers, Hand	1.92%	1,436
5	Office Clerks, General	0.74%	767
6	Waiters and Waitresses	1.06%	753
7	General and Operations Managers	1.83%	659
8	Team Assemblers	0.93%	601
9	Customer Service Representatives	1.13%	587
10	Meat, Poultry, and Fish Cutters and Trimmers	1.99%	539
11	First-Line Supervisors of Retail Sales Workers	1.60%	524
12	Secretaries and Administrative Assistants, Except Legal, Medical, and Executive	0.19%	503
13	Heavy and Tractor-Trailer Truck Drivers	2.06%	459
14	Janitors and Cleaners, Except Maids and Housekeeping Cleaners	2.13%	439
15	Construction Laborers	1.82%	401
16	Elementary School Teachers, Except Special Education	1.76%	400
17	Farmworkers and Laborers, Crop, Nursery, and Greenhouse	0.96%	394
18	Maids and Housekeeping Cleaners	1.87%	386
19	Landscaping and Groundskeeping Workers	2.21%	384
20	Maintenance and Repair Workers, General	1.89%	361
21	Stock Clerks and Order Fillers	1.99%	347
22	Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products	1.63%	341
23	Nursing Assistants	2.36%	338
24	Medical Assistants	3.27%	331
25	First-Line Supervisors of Food Preparation and Serving Workers	1.24%	321

Source: Georgia Dept. of Labor, Workforce Statistics & Economic Research, Projection Unit

Turning towards regional industry growth, Table 1.4 shows the top ten industries with projected growth between 2016 and 2026. While the top two industries may have low absolute employment change numbers, several of the industries (transportation equipment manufacturing, ambulatory health care services, nursing and residential care facilities, and administrative and support services) show large projected growth in both annual percentage improvement and absolute employment change.

Table 1.4 Area Profile for Georgia Mountains Local Workforce Development

Industries by Projected Growth Table

Rank	Industry	Total Annual Percent Change	Total 2016-2026 Employment Change
1	Animal Production and Aquaculture	4.12%	105
2	Waste Management and Remediation Services	4.01%	407
3	Transportation Equipment Manufacturing	3.08%	1,316
4	Ambulatory Health Care Services	3.06%	3,793
5	Amusement, Gambling, and Recreation Industries	2.76%	708
6	Support Activities for Transportation	2.64%	292
7	Nursing and Residential Care Facilities	2.58%	1,023
8	Administrative and Support Services	2.49%	3,521
9	Social Assistance	2.49%	952
10	Clothing and Clothing Accessories Stores	2.34%	700

Source: Georgia Dept. of Labor, Workforce Statistics & Economic Research, Projections Unit

GMWDB also considered current employment distribution across industries to understand where current employment and demand may intersect for additional jobseeker opportunities. Employers across many industries cited concern about an aging workforce and available jobseekers to replace retiring workers. While some of these industries may not show up as growth industries, there will still be steady demand for a competent and ready workforce to replacing workers who will be retiring over the next four years. Table 1.5 below shows Georgia Mountains Area 2 industry employment distribution through the third quarter of 2019.

Table 1.5 Area Profile for Georgia Mountains Local Workforce Development Area, GA

Industry Employment Distribution Table

Rank	Industry Sector	Number of Establishments	Number of Employees
1	Manufacturing	836	42,052
2	Health Care and Social Assistance	1,631	33,319
3	Retail Trade	2,172	31,696
4	Accommodation and Food Services	1,233	25,796
5	Educational Services	356	23,023
6	Administrative and Support and Waste Management	958	15,235
7	Construction	1,772	14,535
8	Wholesale Trade	1,010	11,833
9	Public Administration	206	10,469
10	Professional, Scientific, and Technical Servi	1,924	10,151

Georgia Dept. of Labor, Workforce Statistics & Economic Research, Quarterly Census of Employment and Wages Program

Utilizing the data made available through the Georgia Department of Labor (GDOL), data provided by area employers, and data made available through the state's Burning Glass Labor Insight analysis, the GMWDB has developed a comprehensive growth and demand occupation list. This list includes a variety of industries and employment types to account for all the different jobseekers within the region. GMWDB's growth and demand occupation list is included as Attachment 1.

1.2.b: Provide an analysis of the knowledge and skills needed to meet the employment needs of the employers in the region, including employment needs in in-demand industry sectors and occupations.

In Georgia Mountains Area 2, for the majority of the occupations projected to have the greatest number of annual openings between 2016 and 2026, advanced degrees and specialized training are not required, as noted in Table 1.6. While many of the listed occupations are projected to have large numbers of annual openings, many of them do not offer living wages.

**Table 1.6: LONG-TERM OCCUPATIONAL PROJECTIONS: Most Annual Openings
2016 to 2026

Source: GA Dept. of Labor, Workforce Statistics & Economic Research

For occupations with fastest job growth, several of the occupations require higher levels of education as found in Table 1.7. However, the total number of openings in these occupations is projected to be relatively low.

**Table 1.7: LONG-TERM OCCUPATIONAL PROJECTIONS: Fastest Job Growth
2016 to 2026

The education requirements information found in Tables 1.6 and 1.7 above align with information about the current certifications in greatest demand, found in Table 1.8 below. Data from Burning Glass Labor Insight on certifications currently in greatest demand illustrates that over half of the most in demand certifications are in the healthcare field. Many of the certifications require more education than a high school diploma, but less education than a bachelor's degree.

Table 1.8 Certifications in Greatest Demand

GDOL publishes “Georgia’s Hot Careers to 2026” infographic that highlights state-wide growing and demand occupations. To be included, occupations must demonstrate fast job growth, above average wages, and have at least 400 average annual openings statewide. The list available in April of 2020 includes 60 occupations. Of these 60 occupations, 83.33% require more than a high school diploma. 76.67% of the occupations require a bachelor’s degree or higher level of education.

The average age of the Georgia Mountains Area 2 workforce continues to rise, creating concerns about replacing retiring workers along with meeting the demand for new positions in growing industries and occupations. As noted in Table 1.9 below, from 2009-2017, every county in Georgia Mountains Area 2 saw the working age percentage of the population decline. During this same period, the percentage of the area’s population that is 65+ continued to grow.

Table 1.9: Georgia Mountains Age Distribution 2009-2017

	< 18			18-65			65+		
	2009	2017	Change 2009-2017	2009	2017	Change 2009-2017	2009	2017	Change 2009-2017

Source: US Census Bureau

In addition to a need for skilled workers, current labor market data suggests a strong need for soft skills. As noted in Table 1.10 below, soft skills are in greatest demand in many current job listings.

1.2.c: Provide an analysis of the workforce in the region, including current labor force employment, unemployment data, information on labor market trends and the educational and skill levels of the workforce in the region, including individuals with barriers to employment. List all data sources used to gather this information.

As noted in Table 1.1 Georgia Mountains Area 2 continues to have a strong labor market with robust participation. Unemployment is at historic lows. However, these numbers do not include the disengaged unemployed who may have given up on actively seeking employment, so efforts will be made to identify and reengage these long-term unemployed with the workforce.

Just as Table 1.9 above demonstrates the increasing age of the Georgia Mountains Area 2 population it also suggests an aging workforce. Local industry surveys confirm that many employers are concerned with the aging of employees in critical skill positions, especially in positions requiring manufacturing and mechanical skills. In addition to the loss of institutional knowledge there is also a concern about the loss of soft skills and how the combined loss of these skills may impact continuity of operations and maintenance of production levels.

Georgia Mountains Area 2 continues to have strong high school graduation rates, as noted in Table 1.11 below.

**Table 1.11 Georgia Mountains Area 2
Public 2019 High School Graduation Rates**

County	2019
Banks	85.28%
Dawson	95.75%
Forsyth	93.86%
Franklin	90.73%
Habersham	92.62%
Hall	85.80%

Lumpkin	95.54%
Rabun	91.50%
Stephens	91.39%
Towns	97.62%
Union	99.53%
White	91.96%

Source: Georgia Governor's Office of Student Achievement

As noted in section 1.2.b, many of the jobs in growth and demand occupations require technical skills and additional certifications. As jobs become more technical and there is an increased expectation for advanced skills, there is also a concern with the education level of the workforce. As noted in Table 1.12 below, 19.3% of the current workforce does not have high school diplomas or General Educational Development test (GED) diplomas. This lack of credential leaves this portion of the workforce vulnerable in times of economic downturn, layoffs, and company closures.

Table 1.12: Georgia Mountains Area 2 Education of the Labor Force

	Percent of Total	Percent Distribution by Age				
		18-24	25-34	35-44	45-64	65+

Post-Graduate Studies	7.6%	0.4%	6.5%	9.2%	9.3%	8.0%

Source: US Census Bureau

Georgia Mountains Area 2 also continues to struggle with low incomes and poverty. Table 1.13 below illustrates the average per capita income for the region as well as for each individual county. There is significant disparity between some of the Georgia Mountains Area 2 counties, meaning workforce strategies should be tailored to the needs of each county.

Table 1.13: Per Capita Income

GMRC	\$ 17,236	\$ 20,975	\$ 22,437	\$ 31,177	12.3%

Source: Woods & Poole Economics, Inc.; US Census Bureau (2010 and 2017)

Compounding the fact that several Georgia Mountains Area 2 counties have low per capita income and increased percentages of individuals living in poverty, there are other barriers to employment.

According to the 2017 census, 61% of the Georgia Mountains Area 2 workforce commutes more than ten miles from home to work. 30% of the workforce travels more than 25 miles. While this data only represents currently employed workers, it also suggests that lack of transportation, distance to employment, and the costs of transportation may also be barriers for unemployed jobseekers.

Georgia Mountains Area 2's workforce also struggles with accessible and affordable childcare. According to Bright from the Start, the Georgia Department of Early Care and Learning (DECAL), there are less than 250 registered childcare providers within Georgia Mountains Area 2, including YMCAs, elementary school after-school programs, summer-only providers, and home-based childcare. Less than 5% of Georgia Mountains Area 2 providers offer extended hours after 6:30 pm, and only 3 providers in the region have listed weekend hours. For jobseekers who may work second or third shift or in non-traditional jobs, lack of childcare maybe a barrier to employment. According to Child Care Aware of America, the average price of infant childcare in Georgia is \$8,729 in a childcare center and \$7,309 in a home-based childcare environment. For low-income families, or those with multiple children, the cost of childcare remains a barrier to employment.

A criminal record may also be a barrier to employment and may limit access to certain sectors of the workforce. As noted in Table 1.14 below, over 1,500 individuals who reported a Georgia Mountains Area 2 county as their home county were released over the past two years. Statewide, the Georgia Department of Corrections reports that 50.2% of all inmates released in 2019 had less than a high school diploma or GED at release, creating additional barriers to employment.

According to the American Community Survey's 2014 – 2018 5-year survey, 12.3% of the Georgia Mountains Area 2 population identified as having a disability. These individuals may need additional resources and assistance to access the workforce. GMWDB will continue to work with the Georgia Vocational Rehabilitation Agency (GVRA) to address the education and training needs of this population.

1.2.d: Provide an analysis of the workforce development activities (including education and training) in the region, including an analysis of the strengths, weaknesses and capacity of such services to address the identified education and skill needs of the workforce, and the employment needs of employers in the region.

The WorkSource Georgia Mountains one-stop system provides an array of services designed to provide jobseekers with the resources and support necessary for success. Under WIOA, advancements in partnership and program integration have strengthened the workforce system and enhanced WSGM's ability to assist all jobseekers, including those with the barriers identified in Section 1.2.c. WSGM remains committed to connecting jobseekers with the most appropriate services and resources available through one-stop and other community partners across the region.

Through the Georgia Department of Labor, jobseekers have access to unemployment insurance services, Wagner-Peyser job search and other career services. GDOL also houses the DVOPs (Disabled Veteran Outreach Programs) and LVERs (Local Veteran Employment Representatives) that provide vital support to Georgia's veterans and transitioning service members.

GDOL often serves as the entryway into the workforce system and provides referrals to many of the partner programs. GDOL's Business Services Unit and Workforce Solutions Division partner with WSGM business services staff to provide business outreach and other resources including Rapid Response services. WSGM partners with GDOL on Rapid Response service provision and also provides services to many of the jobseekers referred by GDOL.

GVRA provides a variety of individual services to jobseekers with disabilities. These services, including education, employment, and training services, prepare jobseekers for employment in a competitive labor market. GVRA also performs business outreach to assist employers with understanding the value in hiring and retaining valuable employees with disabilities.

For individuals needing assistance to obtain their GED, the local technical colleges, serving as adult education providers through funding awarded by the Technical College System of Georgia's Office of Adult Education (TCSG-OAE), provide valuable education resources and support. TCSG-OAE adult education providers also offer literacy programs and programs to support English language learners.

Georgia Mountains Area 2 benefits from having three technical colleges as well as several universities within the region. The technical colleges are actively engaged in providing programs of study in locally relevant career pathways. The technical colleges also have strong economic development programs that regularly partner with business and industry to create customized local solutions to their workforce hiring and training needs.

WSGM also works with local secondary education systems and the technical colleges in the investment of Carl Perkins Act funds. WSGM staff regularly participate in the annual local planning process for all participating

institutions and share labor market analysis, industry needs, and other information that helps strengthen the alignment between Perkins-funded education and local employer needs. WSGM also regularly collaborates with local secondary schools on work-based learning opportunities and transition of students into post-secondary education and occupational training. Many Georgia Mountains Area 2 secondary schools, including local College and Career Academies, already have strong relationships with local industry partners and have developed robust work-based learning opportunities for students. A recent WSGM survey found that in responding school systems, 33% of work-based learning students were placed in work-based learning for a skill-based career pathway. Of those students, 10% were in manufacturing or agricultural mechanics, both in high demand throughout Georgia Mountains Area 2.

High school students who complete a minimum of three courses in a CTAE career pathway may also take an End of Pathway Assessment. End of Pathway Assessments are national industry-developed certifications, national occupational assessments, state licensures, or state issued certifications. These assessments determine the knowledge, skill and understanding gained by the student in the career pathway. As shown in Table 1.15 below, over the last three school years, Georgia Mountains Area 2 had over 10,000 students successfully pass the End of Pathway Assessment and receive their credential.

WSGM regularly provides training funds, supportive services, work-based learning funds, and business services to eligible jobseekers and employers throughout the region. More information about WSGM services is found throughout this plan.

Strengths:

GMWDB continues to work with secondary education systems, postsecondary education institutions, and other training providers to bridge the gap between development of talent and deployment of talent. Through WSGM business services staff and education partner economic development staff, Georgia Mountains Area 2 is working to ensure that educators and training providers are aware of the skills and workers that are needed and have made the connections to link jobseekers and those in training with the industries and employers that are ready to hire them.

WorkSource Georgia Mountains has also seen an increased demand for the work-based learning and business services offered through WIOA. WSGM Business Services staff and contractors have developed relationships with employers of all sizes and representative of most of the growth and demand industries in the region. These relationships have led to an increase of internship, incumbent worker training (IWT), on-the-job training (OJT) and work experience opportunities throughout the region.

Through the sector strategies partnership growth over the last four years, Georgia Mountains Area 2 has seen the development of stronger partnerships between workforce partners, secondary education systems, postsecondary education institutions, and local employers. This has led to an increase in interest in local demand careers, increased K-8 student awareness of local demand industries, increased work-based learning and apprenticeship opportunities for local jobseekers, and the development of the Apprenticeship 101 program at Lanier Tech. Apprenticeship 101 supports local businesses by serving as the apprenticeship sponsor for needed apprenticeship programs, reducing the administrative burden on the employer and increasing the pipeline of qualified jobseekers to advanced manufacturing and related industries.

GMWDB has an active and engaged group of local one-stop partners. There is a strong spirit of collaboration. The one-stop partners regularly contribute during GMWDB meetings and provide thoughtful insight about the services they offer and the resources their customers require. They also regularly participate in the bi-monthly one-stop partner meetings and invite and encourage other local community resource partners to attend.

Weaknesses:

GMWDB has made significant progress in enhancing the visibility and awareness of the WorkSource Georgia workforce system within Georgia Mountains Area 2, although barriers still remain to ensuring comprehensive jobseeker and employer awareness of the information and resources available through the one-stop system. Much progress has been made in reaching advanced manufacturing employers through the sector partnership grants and collaborations. GMWDB will utilize leading practices learned through the sector partnership process to grow and develop its business services strategy for reaching employers in other demand industry sectors.

As WSGM works to expand regional awareness of business services and work-based learning, WSGM staff have learned that GMWDB members, community partners and contractors need better understanding of the nuances of eligibility and suitability for WIOA services, both for jobseekers and employers. To help partners and contractors understand WSGM's strategic mission and priorities for workforce services, staff are hosting a series of lunch and learns to provide an understanding and to empower partners and contractors to serve as WSGM's advocates and champions. Topics include: OJTs, incumbent worker training, internships versus youth work experience, occupational skills alignment with business services, participant and employer eligibility for work-based learning, and Registered Apprenticeship. WSGM continue to work with GMWDB to reinforce program understanding through regular meetings as well as the annual strategic retreat.

In the current economic climate, with reduced unemployment and increased economic growth, GMWDB is providing more services to adults and increasing the share of services provided through work-based learning such as OJT, work experience, and IWT opportunities. GMWDB already transfers a majority of dislocated worker funds to adult funding eligibility. Given the increased costs of work-based learning as compared to traditional educational offerings there is still a decrease in the number of participants that GMWDB is able to

serve. There is still a gap between employer demand and WSGM's ability to provide services to all employers using the current WIOA grant allocation. Additionally, WIOA caps the amount of funds that may be expended on IWT. GMWDB works to use IWT and then backfill the vacancies created by IWT with OJT or other WIOA services. WIOA limits on IWT make it difficult to provide this service to all interested employers. GMWDB will look to the state for additional assistance and guidance on the best way to leverage limited funding to meet the needs of jobseekers and employers.

Due to the rural nature of much of Georgia Mountains Area 2, transportation and accessibility of services can be a barrier to service provision and continued outreach. The deployment of GMWDB's two mobile units and regularly scheduling orientations in all thirteen counties has helped increase program access and awareness, but progress needs to continue to ensure jobseekers and employers are aware of all available resources.

GMWDB has invested time and money into technology updates and partner integration efforts. GMWDB has made progress and continues to make progress as noted throughout this plan, but data integration for jobseeker services and case management will need additional assistance from the state. Updating technology and introducing new systems is also expensive. Balancing the need for additional technology to support employer and participant services and the demand for these services continues to be a challenge that GMWDB is working through.

1.2.e: Provide a description of the local board's strategic vision and goals for preparing an educated and skilled workforce (including youth and individuals with barriers to employment), including goals relating to the performance accountability measures based on primary indicators of performance in order to support regional economic growth and economic self-sufficiency.

After the passage of WIOA, GMWDB and the WSGM staff held a strategic planning meeting to develop a vision and a path forward. The meeting resulted in the updated GMWDB mission and areas for focus and continued development.

Mission: To achieve sustainable economic growth and individual self-sufficiency by developing, sustaining, and promoting employment resources and opportunities for all jobseekers and employers through community partnerships.

GMWDB and WSGM staff identified four key areas for strategic focus and effort – cooperation and collaboration; jobseeker skills; public awareness, and board development. Table 1.16 outlines the goals established for each focus area. GMWDB and WSGM staff will review progress in these focus areas and refine goals and plans in the fall of 2020.

Table 1.16 GMWDB Strategic Focus Areas and Associated Goals

Cooperation and Collaboration	<ul style="list-style-type: none"> · Improve communication among all agencies and resources to better collaborate and improve services to clients in our area · Identify service gaps and identify resources to fill the gap and eliminate possible weaknesses in the program, allowing for better service to the area · Enhance target strategies with a strong focus on: the unemployed and underemployed; youth, both in school and out; dislocated workers; and OJT strategies · Develop a comprehensive inventory of services available to jobseekers and employers · Increase agency administrators' awareness of employment and training (WIOA) services by increasing visibility and communication
Job Seeker Skills	<ul style="list-style-type: none"> · Ensure job seekers receive education and training in demand, specialized fields that make them attractive to specific industry needs
Public Awareness	<ul style="list-style-type: none"> · Develop positive name-recognition for GMDWB and WSGM to increase visibility and word-of-mouth promotion · Develop relationships with local news media to continue to promote WSGM programs and their benefits · Increase outreach to employers to make them aware of the benefits available through WSGM programming
Board Development	<ul style="list-style-type: none"> · Create and support a Workforce Development Board that is representative of the community, comprised of effective stakeholders, and enjoyable for all members. A diverse board will help engage all facets of local communities and provide services to all eligible individuals

1.2.f: Taking into account the analyses described in sections “1.2. a-e” (above), provide a strategy to coordinate core programs to align resources available to the local area to achieve the strategic vision and goals.

GMWDB has developed the following strategies to ensure core programs and partner resources are aligned to maximize support for jobseeker success:

- Regularly review the One-Stop Memorandum of Understanding (MOU) to ensure all partners are engaged and participating

- Host bi-monthly one-stop partner meetings
- Establish cross-training opportunities for core and community partners
- Honor and respect the value of all partners' contributions
- Ensure the one-stops are welcoming, pleasant and customer-centered spaces
- Utilize digital and electronic connections and coordination for core programs and aligned resources
- Seek additional partners and linkages to provide a broad array of services and resources
- Encourage regular communication among all partners
- Celebrate innovation

1.3: Description of Strategies and Services

Provide a description of the strategies and services that will be used in the local area in order to accomplish the items listed below.

1.3.a: How will the area engage employers in workforce development programs, including small employers and employers in in-demand industry sectors and occupations?

WSGM Business Services staff and contractors regularly engage employers throughout Georgia Mountains Area 2. They frequently attend local chamber meetings and other networking events. Strengthened relationships with local economic developers have also facilitated additional introductions and insight about new and growing local employers and industries. Business Services staff and contractors also frequently meet one-on-one with businesses to share information about available services and to provide copies of the local WSGM service guide. Local technical college economic development staff also attend WSGM Business Services meetings to share insight and information about local business needs.

1.3.b: How will the area support a local workforce development system that meets the needs of businesses in the local area? Discuss the area's workforce services to businesses and how business and organized labor representatives on the Local Workforce Development Board (LWDB) contributed to the development of these strategies. Provide a listing of business services available through the area(s) such as employer workshops and assessment and screening of potential employees.

WSGM has developed a local workforce development system that regularly seeks input from business and labor employers throughout the region, including those who serve on the GMWDB. GMWDB members regularly provide input and insight about their particular industry successes and struggles. GMWDB's roster includes two organized labor representatives. Both representatives regularly attend and participate in WIOA planning and business service strategy development.

WSGM has also increased the size of its Business Services team, developed outreach material to promote the range of business services available to area employers, and increased presence at local chamber meetings, economic development meetings, and other community events that afford opportunities to network with local employers.

Business Services offered through the one-stop system include:

- Job applicant recruitment
- Job applicant screening
- Job postings/orders
- Job/employee matching
- Skills assessments
- Meeting space for employer interviews
- Labor market information
- Census data
- Unemployment insurance information
- Job Fairs
- On-the-Job training
- Incumbent worker training
- Layoff aversion
- Apprenticeship assistance
- Mobile Training Unit
- Rapid Response services
- Internship and work experience

1.3.c: How will the area better coordinate workforce development programs and economic development? Additionally, identify economic development partners and describe the involvement of the economic development community in developing strategies. How will the area strengthen linkages between the one-stop delivery system and unemployment insurance programs?

Georgia Mountains Area 2 has developed strong working partnerships with local economic developers. These partnerships have been strengthened through participation in regional and statewide sector strategies workshops and planning sessions.

Georgia Mountains Area 2 includes the service delivery area for 3 technical colleges. Two of the three technical colleges have representation on the GMWDB. North Georgia Tech and Lanier Tech economic development staff are also regularly invited to WSGM Business Services meetings.

WSGM has a strong relationship with both Lanier Tech and North Georgia Tech for the development and sponsorship of Registered Apprenticeship programs. Both technical colleges are approved sponsors and can assist local employers of all sizes stand up Registered Apprenticeship programs.

WSGM regularly meets with University of North Georgia's economic development staff and collaborates with Brenau University business incubator program.

WSGM also partners with local economic development authorities at both the city and county level and participates in local economic development committees through local chambers, rotary clubs, and other community organizations that support economic development and growth activity.

WSGM is actively involved in the Georgia Mountains Regional Commission's Comprehensive Economic Development Strategy (CEDS) Committee. The CEDS Committee regularly updates the GMRC Comprehensive Economic Development Strategy and Regional Plan that establishes a roadmap to create jobs, foster more stable, resilient and diversified economies, improve living conditions, and provide a mechanism for guiding and coordinating the efforts of persons and organizations concerned with economic development. The CEDS Committee monitors several performance measures in real time, and WSGM regularly contributes data and insight to the committee and integrates the Committee's goals and strategies into the larger workforce system goals and strategies.

For many jobseekers, GDOL's unemployment insurance programs are the gateway to the workforce system. GDOL regularly coordinates the efforts of the Unemployment Insurance (UI) program with the Business Services Unit, looking for opportunities to pair unemployed jobseekers with employers looking to grow or replace their workforce. Rapid Response services also seek to minimize the utilization of UI services through partnership with WSGM and other one-stop partners to quickly put jobseekers back into the workforce.

1.4: Regional Service Delivery (Not Applicable)

1.5: Sector Strategy Development

Provide a description of the current regional sector strategy development for in-demand industry sectors.

Pursuant to guidance found in WIG LS-19-018, the Georgia Mountains Workforce Development Board (GMWDB) will complete an update of this section for submission by the October 1, 2020 deadline. No updates or changes have been made to this section at this time.

1.5.a: Describe the partners that are participating in the sector strategy development.

On November 3, 2016, a strategic planning sessions meeting was held at Lanier Technical College, and individuals representing numerous industries and partner organizations provided valuable input for the development of the High Demand Career Initiative in Georgia Mountains Area 2, with an initial focus on Advanced Manufacturing. Participants compiled an inventory of existing services. Additionally, a SWOT (Strengths, Weaknesses, Opportunities, and Threats) analysis regarding the Advanced Manufacturing Sector in the Georgia Mountains Area 2 was completed. The following organizations were represented at that meeting:

- Goodwill of North Georgia
- GA Dept. of Economic Development
- Cumming Forsyth Chamber of Commerce
- Lanier Technical College
- Plumbers Pipefitters & HVAC Service Technicians Local Union #72
- IMS Gear
- Development Authority of Rabun County
- Hall County Government
- Greater Hall Chamber
- GA Vocational Rehabilitation Agency
- Hart County Industrial Building

1.5 b: Describe the meetings that have taken place and the strategy by which partners will continue to be engaged.

Approximately ten years ago, Dr. Mark Ivester, then Vice President of Economic Development, now North Georgia Technical College (NGTC) President, established the Economic Development Council. The Council meets once in the fall and once in the spring, in addition to a large Summit once a year. The Council is composed of Industry Leaders, School Superintendents, and Development Authority Directors from the NGTC Service Area which includes Habersham, Stephens, White, Franklin, Rabun, Towns, Union, and Fannin Counties. The purpose of the group is to promote Industry in the Service Area. The meetings have speakers on topics related to the Council, discussions on topics of interest, and new methods to promote workforce development in the region, such as sector strategies. The Economic Development Council met at North Georgia Technical College in September 2016. Those attending were: manufacturing leaders, development authority directors, and school superintendents. WorkSource Georgia Mountains sponsored the September 2016 meeting.

Additionally, Lanier Technical College (LTC) collaborates regularly with area employers and Economic Development Directors of local Chambers of Commerce to host meetings focusing on the workforce needs of local employers. WorkSource Georgia Mountains will be involved as a sponsor of such meetings in the future.

The following entities were represented at an initial pre-planning meeting in Gainesville, GA in September 2014, to launch the process of sector strategy development for Georgia Mountains Area 2, and to proceed with identification of priorities for sector strategies. The focus of this meeting was Healthcare. It was determined that the region would be planning for the Healthcare sector as one of its top priorities through the High Demand Career Initiative (HDCI).

During the multi-regional, state-sponsored sector strategy meeting that occurred February 29 – March 1, 2016, in Union County, core partners assisted in identifying sectors for regional targeting. The WorkSource Georgia Mountains Workforce Director attended that meeting, along with representation of all core partners for the region, and private sector employers.

In June 2016, Georgia Mountains Regional Commission hosted an Economic Development Retreat with the Georgia Mountains Area 2 Economic Development Directors to discuss economic development trends and to share best practices. AT&T sponsored the meeting. Also participating were representatives from Georgia Power, Georgia Department of Community Affairs, and Georgia Department of Economic Development. Similar additional meetings concerning effective collaboration and planning for economic development will continue to be held in the region. Such meetings will provide further direction for identifying high-demand occupations as a focus for local sector strategies.

By building on existing regional efforts for working with area employers to identify workforce needs, Georgia Mountains Workforce Development Board and WorkSource Georgia Mountains staff are promoting sector strategies in the region, and beginning to implement the State program design. WorkSource Georgia Mountains has begun to sponsor such meetings in the region, serving as a link between various entities to share information and to promote opportunities for area employers to take the lead in determining the types of training needed.

Georgia Mountains Area 2 is committed to developing local sector strategies that are: 1) regional in scope, 2) industry-specific, and 3) driven by employers. The groundwork of developing working relationships with area employers has been proceeding well. Now employer members of the Georgia Mountains Workforce Development Board assist in recruiting employers from identified sectors to participate in additional sector strategy initiatives for the region.

[Georgia HDCl Report](#) and [Georgia HDCl Initiative](#)

Meetings have been held with partners, including the selected sector of Advanced Manufacturing. The Sector Partnership Launch Process is continuing.

On December 8, 2016, a needs assessment meeting for HDCI was held at Goodwill Industries in Cornelia, Georgia. The convener was a businessperson with several decades of executive experience with corporate manufacturing and human resources management.

The focus of the meeting was for service provider partners to listen to area manufacturers describe their workforce needs. The result of the meeting was identification of several general themes such as the need for Work Ethics training and other Soft Skills. Another identified theme was the need to improve the perception of the type of jobs and the working conditions of modern manufacturing.

In 2017, the convener held individual meetings with nine separate advanced manufacturers within the region at their companies to discuss their willingness to participate as members of a group to meet to create a collective vision for HDCI, and to improve the quality and quantity of a workforce pipeline for this region. To date, commitments have been received from eight of these manufacturers.

The next step in implementing the strategic plan for HDCI will be for the sector strategy group to meet to identify action items, decide specific responsibilities, develop a timeline, and determine how success will be measured in meeting their set goals. A convener with business experience will initiate these steps. Champions will be identified from within the manufacturing group to assure that leadership comes from them.

1.5.c: Describe the research and the data that was used to identify the sector that was chosen for the sectors strategies training.

Sector Strategies have been defined as **“Goals, plans of action, policies, and service delivery strategies developed and continually re-examined by sector partnerships to meet the ongoing and changing needs of employers within that sector.”**

The definition above, along with other helpful information concerning successful approaches to the process of developing effective sector strategies, is presented in the following hyperlinked article from the firm of Maher & Maher, Investment Advisers for Talent Development. [WIOA Sector Strategies](#).

Additional resources used to help identify the sector chosen for the sectors strategies training in Georgia Mountains Area 2 are:

Labor Force Activity

	ANNUAL AVERAGES

Note: This series reflects the latest information available. Labor Force includes residents of the county who are employed or actively seeking employment. Source: GDOL

Burning Glass reports for the thirteen county Georgia Mountains area were reviewed and analyzed by the Georgia Mountains Workforce Development Board and WSGM staff, by area Technical College administrators, and by Regional Economic Developers.

These reports revealed the following: Top Occupations in Georgia Mountains Area 2 posted from Feb. 1, 2015 to Jan. 31, 2016 were: Heavy & Tractor Trailer Truck Drivers (2,489); Registered Nurses (2,014); Retail Salespersons (1,312).

Top Industry Sectors for the Georgia Mountains Area 2 during that same time were: Health Care and Social Assistance (4,560); Retail Trade (2,953); Manufacturing (1,826) and Transportation & Warehousing (1,813).

Also for the 12-month period, Burning Glass reports for the Georgia Mountains Area 2 indicated the following openings in manufacturing: Manufacturing Machine Operator (115); Production Worker (53); Quality Inspector (42); Forklift/Pallet Jack Operator (36); Welder/Solderer (26); Assembler/Fabricator (21); and Machinist (18).

The review group determined that the best choice for the first sector strategies training in Georgia Mountains Area 2 would be Manufacturing since there is a strong demand for employees in this sector, and wages for those positions are relatively high for the training time and costs incurred. One especially strong portion of this sector is that of automotive supply. As depicted previously in this report, there are many automotive supply companies located in this region. GMWDB plans to develop closer relationships with these companies and to request their guidance in designing appropriate training to help meet their needs for qualified employees.

Employment Trends

Source: GDOL Explorer

The Georgia Manufacturing Alliance (GMA) is a professional organization founded in 2008 to support Georgia's manufacturing community. GMA provides monthly plant tours, educational sessions, and unique networking opportunities designed to help make profitable business connections for its members. WorkSource Georgia Mountains will link with the Georgia Manufacturing Alliance members in this region to gain greater support and potential leadership for the Manufacturing Sector efforts in this area.

<http://www.GeorgiaManufacturingAlliance.com>

Another group of interest in planning for a sector strategy focus on manufacturing is the Women in Manufacturing Association <http://www.womeninmanufacturing.org/home>. This organization is a founding partner of Precision Metal Forming Association. <http://www.pma.org/home/>. Links with this organization of women leaders could potentially provide partnerships for developing in-demand training for target groups in the region.

Of course, there will be continued coordination with regional economic developers from area Chambers and from area businesses.

Additional resources used to provide information to identify the sectors chosen for sector strategies training in Georgia Mountains Workforce Development Area 2 were provided by GDOL in Burning Glass reports (see below).

Georgia Mountains BA - Manufacturing openings last 30 days

1.5.d: Provide a completed outline of the sector strategy for the previously identified sector that includes the following details: participating employers; target occupations; training programs; and target populations.

I. Participating employers:

Some of the employers participating in this sector strategy process are:

- IMS Gear
- King's Hawaiian
- Osborne Wood Products
- NOK
- USA Production Parts
- Corrugated Replacements
- Panel Built
- GAP Partners

II. Target Occupations:

Targeted occupations identified within the advanced manufacturing section for the region are:

- Welding
- CNC (Computer Numerical Control) Operators
- Precision Metal Working
- Machine Operators
- Fork Lift Drivers
- Assembly Line Workers
- Advanced Lathe Operators

III. Training programs; and:

Training programs in Georgia Mountains Workforce Area 2 for these targeted occupations are offered at area technical colleges. North Georgia Technical College offers courses in precision metal working, welding technology, tool & die technology, machine shop technology, and heavy equipment maintenance. Lanier Technical College offers certificate-level programs for CNC specialist, and for lathe operator.

Area manufacturers have also identified a strong need for “soft skills” training for applicants and for their existing employees. Plans are underway to develop additional opportunities for training in these skills.

IV. Target Populations:

Target populations for these training programs are:

- Ex-offenders
- Out-of-school youth
- Veterans
- Individuals with disabilities

1.5.e: Describe the plans for future strategy development for future sectors. If applicable, discuss the next sectors to be targeted.

Labor market information from GDECD and GDOL points to the development of two additional sectors for the region – those of Life Sciences and of Logistics and Transportation. Further research is being conducted through contact with area employers, as well as through analysis of updated regional labor market information, to confirm these findings. Focus meetings will be held with employers and training providers in these two sectors to determine specific workforce needs and capacity for services within the region. A convener with private sector business experience will coordinate these initial exploratory meetings, and champions from the specific sectors will be identified to provide leadership for continuation of the sector development process.

Additional sectors for the region may be identified through continued labor market research.

1.6: Description of the One-Stop Delivery System

Provide a description of the one-stop delivery system in the local area that includes the items detailed below:

1.6.a: Provide a description of how the local board will ensure the continuous improvement of eligible providers of services through the system and ensure that such providers meet the employment needs of local employers, workers and jobseekers.

The Georgia Mountains Workforce Development Board, through the WorkSource Georgia Mountains staff, offers guidance and training to eligible providers to assist with maximizing the effectiveness of the services they provide. WSGM staff regularly offers meetings, training seminars, online tutorials, newsletters, and Facebook updates to service providers. These communication strategies highlight leading practices in service delivery, answer frequently asked questions, provide updates about performance, and provide assistance in implementing guidance released by USDOL and the Technical College System of Georgia's Office of Workforce Development (TCSG-OWD). Service providers are also encouraged to share their success stories with the WSGM Staff and the One-Stop Operator so that these stories may be highlighted in the One Stop Centers as well as in GMWDB meetings.

1.6.b: Provide a description of how the local board will facilitate access to services provided through the one-stop delivery system, including in remote areas, through the use of technology and through other means.

The Georgia Mountains Workforce Development Board encourages WorkSource Georgia Mountains and other one-stop providers to embrace technology as a means of effective outreach and service delivery throughout the region. The comprehensive One-Stop Center is in Hall County, a large population center for the region. Partners have one-stop affiliates and specialized sites in many of the counties. For areas that may not have regular access to a physical location, WSGM has two mobile units that travel throughout the region providing workforce training services on a regular schedule. The mobile units are also able to offer access for partners to expand their service delivery models and provide comprehensive service response to Rapid Response events when needed.

WorkSource Georgia Mountains utilizes SARA, a cloud-based communications tool that streamlines communications with participants through texts, email, and other in-app communications. This system allows

WSGM staff to send email and text updates to participants and jobseekers working on intake documentation. Individuals can upload their documents from their phones and receive updates about their registration status without having to physically access a one-stop center. The utilization of this system has streamlined the intake process and improved communications with participants and other individuals seeking services. SARA is also utilized for case management and participant follow-up. The utilization of this system has improved participant responsiveness.

The Georgia Mountains Workforce Development Board continues to work with partners in the region to identify additional opportunities for expanded service delivery.

1.6.c: Provide a description of how entities within the one-stop delivery system, including one-stop operators and the one-stop partners, will comply with WIOA § 188, if applicable, and applicable provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) regarding the physical and programmatic accessibility of facilities, programs and services, technology and materials for individuals with disabilities. This should include the provision of staff training and support and addressing the needs of individuals with disabilities.

GMWDB ensures that all entities within the one-stop delivery system are compliant with WIOA §188, as applicable, and with all applicable provisions of the Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. 12101 et seq.) All one-stop centers are reviewed as part of the biennial one-stop center certification process. This review includes ADA compliance as well as other accessibility requirements.

The one-stop also contains notice concerning requirements for compliance. These notices are posted in the entrance lobby as well as the training room.

Training for partners and staff is regularly provided through the one-stop partner meetings, including guidance on the use of universal design in developing and delivering workforce services.

The One-Stop Operator ensures that interpreters and other assistance is available for all customers who may need additional assistance to access services.

1.6.d: Provide a comprehensive description of the roles and resource contributions of the one-stop partners.

WorkSource Georgia Mountains has an active and engaged group of partners who actively collaborate to provide services to participants within the region. Below is a general overview of the services provided by each of the one-stop system partners as outlined in the Memorandum of Understanding.

- Georgia Mountains Regional Commission – fiscal, administrative, and program management services
- Georgia Mountains Workforce Development Board – through the WorkSource Georgia Mountains staff, the GMWDB provides Adult, Dislocated Worker, and Youth WIOA Title I Services
- Georgia Department of Labor – Wagner Peyser program services and career services
- Georgia Vocational Rehabilitation Agency – career services
- Georgia Department of Human Services, Division of Family and Children’s Services – supportive services

- Technical College System of Georgia, represented locally by Lanier Tech, North Georgia Tech, and Athens Tech – career services, Adult Education and Literacy activities, and post-secondary education opportunities

The roles and resource contributions of the one-stop partners are reviewed regularly. As appropriate, MOU updates are made to reflect any changes to roles or resource contributions.

1.6.e: Identify the current One-Stop Operator in the local area(s) and describe how the region/local area is preparing for the competitive process for operator selection. Describe how market research, requests for information and conducting a cost and price analysis are being conducted as part of that preparation.

As of the submission date of this plan, Hopkins Associates is the competitively procured One-Stop Operator. The current contract ends June 30, 2020.

To prepare for the next competitive One-Stop Operator procurement process, Georgia Mountains Regional Commission staff collaborated with the Georgia Mountains Workforce Development Board to create a Request for Proposal (RFP) to solicit a number of qualified candidates for review. GMRC, at the direction of the GMWDB, conducted market research about availability of providers and services, sought input from partners about their needs, and reviewed the performance of the current operator to identify updates in desired scope or performance measures to include in the RFP. GMRC also reached out to other Local Workforce Development Areas (LWDAs) in Georgia to conduct analysis of the services being awarded and average costs for those services. GMRC drafted an RFP document and created evaluation criteria in compliance with all state and federal requirements.

The RFP was publicly posted for 30 days and GMRC plans to award a new One-Stop Operator contract before July 1, 2020.

1.7: Awarding Sub-grants and Contracts

Provide a description of the competitive process to be used to award the sub-grants and contracts in the local area for activities carried out under Title I.

The Georgia Mountains Regional Commission, as fiscal agent for Georgia Mountains Area 2, is responsible for procuring all sub-grants and contracts on behalf of the Georgia Mountains Workforce Development Board.

Any services that are not provided by WSGM staff are competitively procured through the release of RFPs. All RFPs are publicized on the GMRC website, through area newspapers, on the Georgia Local Government Access marketplace, and other locations as appropriate. For subject matter where bidders lists have been established, RFP release announcements are also communicated to the bidders list. RFPs specify the requirements for award including the criteria used to evaluate all responses. GMRC and WSGM staff are bound by conflict of interest policies to ensure that no staff with a potential or perceived conflict participates in any part of the RFP process.

RFP review processes ensure that all responsive submissions are reviewed consistently and allow GMRC to select the respondent who will be the most advantageous for the scope being procured. The review includes experience and capability for the bidder to perform the work. The review also evaluates the bidder's demonstrated understanding of the program and activity objectives, the reasonableness and appropriateness of the outcomes proposed by the bidder, financial capacity of the bidder, innovative program design, cost advantage, and geographic

area where the services will be provided. The final award determination is not based solely on price, although it may be a determining factor.

For youth proposals, after WSGM staff have conducted an initial review for responsiveness and a technical review, all responsive proposals are reviewed by the members of the Youth Committee for final evaluation and scoring. This review determines which proposals are brought before the full GMWDB for discussion and approval.

Agency-wide and other contracts, such as the One-Stop Operator contract are also brought before the GMRC Council for approval. Once the GMWDB and GMRC Council have approved, as applicable, an award letter is issued to the selected bidder. GMRC then executed a contract with the awarded service provider.

GMRC also enters agreements with Individual Training Account (ITA) providers on the GMWDB Eligible Training Provider List (ETPL). Participants who desire to attend a provider that is on the State ETPL but not yet on the GMWDB ETPL speak with a WSGM staff member to initiate the process for including a State-approved provider on the GMWDB Eligible Training Provider List.

1.8: EEO and Grievance Procedures

Provide a description of local procedures and staffing to address grievances and complaint resolution.

GMWDB ensures jobseekers, participants, employers, providers, and subrecipients can access Equal Employment Opportunity (EEO) and grievance information in a variety of ways. WSGM's Rights Statement, including the Babel Notice, is available in orientation sessions, intake applications, the WSGM website, and the Georgia Mountains Area 2 One-Stop website. EEO and Rights Statement information are also made available in provider applications, subrecipient contracts, and all work-based learning agreements with employers.

All complaints are documented and reviewed by the GMRC Equal Opportunity Officer for resolution. GMRC's procedures for resolving complaints and grievances are included in the Rights Statement included as Attachment 2.

2.0: Local Boards and Plan Development

2.1: Local Boards

Provide a description of the local board that includes the components listed below.

2.1.a: Describe how local board members are identified and appointed. Include a description of how the nomination process occurs for adult education and labor representatives. (20 CFR § 679.320(g))

Georgia Mountains Area 2's Chief Local Elected Official (CLEO) is responsible for all GMWDB appointments. GMWDB bylaws require the GMWDB or WSGM staff to notify the CLEO within 10 days of the GMWDB's notification of the vacancy.

GMWDB members will be appointed or replaced in accordance with the GMWDB bylaws for board member vacancies. GMWDB members will be automatically removed from the board after missing three consecutive meetings without cause. GMWDB members may also choose to resign. GMWDB requires dated emails or letters

from the GMWDB member indicating intent to resign from the board. Vacancies shall be filled within a reasonable timeframe not to exceed 90 days from the date of notice. If a vacancy is created by local policy or GMWDB bylaws, the vacancy begins at the date of the final action dictated by local policy or GMWDB bylaws. GMWDB must receive TCSG-OWD preapproval through a waiver request on any board action taken outside of the ninety-day limit.

Private sector representatives to the board are selected by the CLEO from among individuals nominated by business organizations and business trade organizations after consulting with, and receiving recommendations from, other business groups within Georgia Mountains Area 2.

Adult Education provider nominations are sought from the Adult Education providers within Georgia Mountains Area 2. A representative from North Georgia Technical College currently serves as the GMWDB Adult Education representative.

Recognized state and local labor federations offer recommendations for GMWDB members. The CLEO selects from among the recommendations and nominates recommended individuals to serve on the GMWDB.

Community-based organizations are selected from non-profit organizations within Georgia Mountains Area 2. An eligible non-profit must have a formal structure with officers, bylaws, and recognition within the community it represents.

Upon appointment, each GMWDB member is required to sign and date a copy of the GMWDB bylaws and the Conflict of Interest provisions. These are submitted to TCSG-OWD and a copy is retained by GMWDB for review.

GMWDB membership currently includes more than twenty (20) members representing all 13 Georgia Mountains Area 2 counties. Membership must be comprised at a minimum of 51% private sector industry representation. All members serve on a three-year rotating basis.

GMWDB currently elects a Chair, a Vice-Chair, and a Secretary. The Chair and the Vice-Chair must be representatives from the private sector. All three officers must be elected by the GMWDB. Terms of office shall be no more than three years, subject to the reappointment of the member by the CLEO.

GMWDB membership as of the submission of this plan is included as Attachment 3.

2.1.b: Describe the area's new member orientation process for board members.

All new GMWDB members undergo a multi-step orientation process. All newly appointed members have an initial meeting with the WSGM Director to review general board member responsibilities and the basic structure and purpose of the local workforce system.

New board members also attend an extended new member orientation as part of an annual full board retreat. The new member orientation is developed collaboratively between WSGM staff and current GMWDB members. The new member orientation session covers local workforce system structure, local workforce system funding, general workforce and labor market data, the GMWDB role and responsibilities, and performance and accountability measures.

2.1.c: Describe how the local board will coordinate local workforce development activities with regional economic development activities being carried out within the planning region.

GMWDB continues to collaborate with local economic development partners on workforce and industry needs within Georgia Mountains Area 2. GMWDB and WSGM staff regularly partner with state and regional entities such as: universities and technical colleges; the Georgia Department of Economic Development; the US Economic Development Administration (EDA) Comprehensive Economic Development Strategy (CEDS) Committee; GMRC's Economic Development Department; Georgia Power, Electric Membership Corporation (EMC), and Tennessee Valley Authority (TVA) economic development staff, the Georgia Department of Labor, and the U.S. Department of Commerce CEDS Committee.

WSGM staff regularly attend local and regional business meetings in each of the Georgia Mountains Area 2 counties and have developed strong relationships with county and city economic development staff. GMWDB also invites and encourages economic development staff to participate in sector strategies and sector partnership programs and planning sessions.

GMWDB staff regularly review economic development data available for the region and incorporates that data and insight from economic development partners into the Georgia Mountains Area 2 strategic planning process. GMWDB has developed a truly collaborative process that ensures that all stakeholders are working together to develop solutions that utilize the workforce system's capacity and resources to ensure the region's economic health.

2.1.d: Describe how local board members are kept engaged and informed.

GMWDB meets at least four times a year. Each meeting includes updates on performance, one-stop center activities, business outreach and service delivery, sector partnership progress, and other relevant workforce activity updates. Member input and engagement is solicited at all board meetings.

GMWDB also holds an annual strategic planning retreat. This retreat encourages GMWDB member input on developing goals, strategies, and areas of service emphasis for the coming year.

GMWDB members are invited to participate in regional and state training activities and conferences as appropriate. GMWDB members are also encouraged to attend local WIOA functions, such as sector partnership meetings, local youth and transitioning citizen graduation ceremonies, and other acknowledgements of participant success.

GMWDB also utilizes board committees to allow members deeper information and engagement in areas where they may have additional interest or subject matter expertise.

2.2: Local Board Committees

Provide a description of board committees and their functions.

GMWDB currently has two full-time permanent committees – the GMWDB Executive Committee and the GMWDB Youth Committee.

GMWDB's Executive Committee includes the GMWDB Chair, the GMWDB Vice-Chair, the GMWDB Secretary/Treasurer, and a non-board member appointed to serve. The Executive Committee may act on behalf of the full board when a quorum is not present at a called meeting or when the full GMWDB is unable to convene and a decision is needed quickly.

GMWDB also has a standing Youth Committee. The GMWDB Youth Committee may include local board members, members of community-based organizations with demonstrated success in serving youth, employees of state or local government agencies who provide youth services, youth parents or youth participants, and other community representatives. The GMWDB Youth Committee oversees the youth program budget, makes youth program policy recommendations, reviews youth program RFPS and makes award recommendations to the GMWDB, identifies goals and objectives for the youth program, and works to create a broader alignment of youth resources throughout Georgia Mountains Area 2.

GMWDB Bylaws authorize the GMWDB Chair to establish other ad-hoc committees as needed to perform short-term work and provide insight to the full board. One such ad-hoc committee is the Board Officer Nominating Committee, established for a short period to collect input and make recommendations on the nomination of new GMWDB Officers.

2.2.a: If committees have not been utilized, provide a description of why.

Not applicable

2.3: Plan Development

Provide a description of the process by which the plan was developed to include the participation of core partners, providers, board members, and other community entities. Also describe the process by which the local board provided a 30-day public comment period prior to the submission of the plan to solicit input into the development of the plan, including comment by representatives of businesses, representatives of labor organizations, and representatives of education.

The Georgia Mountains Workforce Development Board began discussing local plan updates with the WorkSource Georgia Mountains staff in January of 2020. A strategic planning meeting was scheduled for late April 2020; this meeting has been postponed to October 2020 due to COVID-19 concerns.

WorkSource Georgia Mountains staff collaborated with GMRC Economic Development staff and business services consultants to complete initial review of updated labor market information. Information was collected from GDOL, Burning Glass Labor Market Insights, the Georgia Department of Education, the Governor's Office of Student Achievement (GOSA) and insight was sought from industry partners, economic development partners, and one-stop partners to update GMWDB's understanding about economic conditions, industry needs, and partner resources within the local area. WSGM Staff also reviewed the State of Georgia's Unified State Plan draft for PY20-PY23 to understand the state's mission, priorities, and goals for the upcoming four-year planning period.

WorkSource Georgia Mountains gathered insight from industry partners, one-stop system partners, and economic development partners on workforce skills needs, industry growth within the region, strengths of the one-stop system, and other information relevant to the GMWDB strategic planning process.

WorkSource Georgia Mountains reached out to one-stop partners such as GDOL, GVRA, local technical colleges, and other local partners to learn more about their priorities and objectives for the next four years. WSGM staff and partners collaborated to update the sections on service integration and partnership to ensure these sections reflected progress made over the last four years as well as recognizing new benchmarks and objectives for the next four years.

Staff also held meetings and calls to finalize the WorkSource Georgia Mountains strategy for providing outreach and in-demand services to employers and participants based on the direction of the GMWDB.

The local plan was presented to the GMWDB for review on May 27th, 2020. After the GMWDB approved the plan, it was posted on the GMRC website for a 30-day public comment period. WSGM staff also sent email notices about plan publication to business and industry partners, one-stop partners, education partners, representatives of labor organizations, GMWDB members, and other interested parties within the region. These emails requested review and solicited feedback about the contents of the plan.

WSGM staff and GMWDB reviewed all comments, recommendations or other feedback received during the public comment period and made corrections and revisions, as appropriate. Copies of all public comments that expressed disagreement with the plan are included in Attachment 4. The revisions were presented to the GMWDB for final review and approval of the plan for submission. Once the GMWDB voted to approve the plan, it was finalized and submitted to TCSG-OWD.

3.0: Service and Delivery Training

3.1: Expanding Services to Eligible Individuals

Provide a description of how the local board, working with the entities carrying out core programs, will expand access to employment, training, education, and supportive services for eligible individuals, particularly eligible individuals with barriers to employment. Include how the local board will facilitate the development of career pathways and co-enrollment in core programs, as appropriate; and how it will improve access to activities leading to a recognized post-secondary, academic, or industry-recognized credential.

The Georgia Mountains Workforce Development Board works closely with all entities carrying out core programs to ensure that partners are operating as a team to provide all eligible individuals access to employment, training, education, and supportive service resources. Special consideration is given to ensuring that methods for outreach, intake, referral, and service delivery are accommodative of individuals with barriers to employment. WIOA Services Program Overviews are provided throughout the WorkSource Georgia Mountains region on a regular basis. There are weekly overviews in Hall County, with a minimum of two other counties scheduled for Program Overviews every month. WSGM strives to ensure that in-person overviews are conducted in every county at least once every six months. WSGM also schedules regular overviews in all GDOL Career Centers and technical colleges. Program Overview schedules are available on the one-stop website and are regularly promoted in the newspaper and on the radio.

Partner locations also have signage explaining WIOA and application information. WSGM also maintains a customized one-stop website for providing outreach and application materials. Access to interpreters and other resources are made available through the one-stops. One-stop partner meetings have focused on accessibility, universal design, and other topics relevant to service expansion and consideration of barrier mitigation.

WorkSource Georgia Mountains also utilizes SARA, a cloud-based communications tool that streamlines communications with participants through texts, email, and other in-app communications. SARA also allows jobseekers to upload documentation from their phones, reducing the need for office visits to collect intake paperwork, supportive service documentation, or other eligibility paperwork. SARA is used for intake eligible review

and submission of supporting documentation. It is also used for case management and participant follow-up. The addition of text communications has improved response rates from participants and reduced the time necessary for intake documentation collection and eligibility review.

In addition to the comprehensive One-Stop location, the Georgia Department of Labor provides four formalized access points for WIOA services. As the provider of Unemployment Insurance and Wagner-Peyser services, GDOL serves as a natural entry-point for many jobseekers. Through the GDOL Career Centers, interested individuals receive information and assistance from the greeter, pointing them towards internet applications as well as providing assistance with basic resume preparation, web-based EmployGeorgia access for career search and job applications, and other basic computer software. Wagner-Peyser staff are also available to aid with job search and job placement once the individual is ready. If training services are needed, referrals are made to providers for WIOA Title I, adult education, or vocational rehabilitation as appropriate.

WSGM encourages co-enrollment for all eligible participants. This coordinated approach ensures the most efficient utilization of non-duplicated program resources and assures that the participant is receiving the broadest array of eligible services.

Updates and information about Program Overviews, training services, and other resources are provided through the WorkSource Georgia Mountains One-Stop website. This website houses information for the partner programs, links to learn more about their specific program services and requirements, a calendar of workforce development events with the WSGM region, information about additional available resources, WIOA services applications, and other information relevant to participants and jobseekers.

Additional information about how GMWDB seeks to promote career pathways and training services may be found in Sections 3.2 through 3.10.

WSGM works with all eligible participants to identify training programs of study that are in-demand and lead to recognized credentials. Where applicable, WSGM staff work to ensure participants understand stackable credential options available within their program of study. WSGM staff review supportive service eligibility with all participants and coordinate resources amongst partners to ensure participants are receiving the wrap-around services necessary for training success.

3.2: Description of Services to Adults and Dislocated Workers

Provide a description and assessment of the type and availability of adult and dislocated worker employment and training activities in the local area.

Adult and Dislocated Worker services are foundational to the success of the workforce system. WSGM offers a variety of career and training services to adult and dislocated worker jobseekers.

Adults and Dislocated Workers are eligible to receive self-service resources, career services, training services, supportive services, and follow-up services through WSGM. Participants may receive services in any order that is deemed appropriate.

Career Services

At a minimum, the following career services are made available to all participants who need them:

- Determination of eligibility to receive assistance
- Outreach, intake, and orientation to information and other services available through the workforce system
- Initial assessment of skill levels, aptitude, abilities and supportive service needs
- Labor exchange services including job search and placement assistance as well as career counseling
- Referral to and coordination with other workforce system resources
- Workforce and labor market information
- Performance information and program cost information on eligible training providers
- Information on WSGM and the workforce system's performance
- Information on and referral to supportive services or assistance
- Meaningful assistance to individuals seeking assistance in filing a claim for unemployment compensation
- Assistance in establishing eligibility for financial aid for programs not funded through WIOA
- Individualized career services necessary for an individual to obtain or retain employment, including comprehensive and specialized assessments, diagnostic testing, and/or in-depth interviews and evaluation to identify employment barriers and appropriate employment goals
- Development of an individual employment plan
- Group counseling
- Individual counseling
- Career planning
- Short-term pre-vocational services
- Internships and work experiences that are linked to careers
- Workforce preparation activities
- Financial literacy services
- Out-of-area job search assistance and relocation assistance
- English language acquisition and integrated education and training programs

Training Services

For participants that have been determined to need additional assistance to obtain or retain employment, training services may be made available. Individuals must be unable to obtain or retain employment, been determined in need of training services and be able to successfully participate in selected program of training services, and meet the qualification requirements of the training service. WSGM also applies priority of service as part of the training service eligibility process. There are a variety of training services funded by WIOA.

Educational training opportunities are predominantly provided through Individual Training Accounts. ITAs allow individuals to select a training institution from the Eligible Training Provider List. WSGM staff consult with each participant to select a training program in a demand industry occupation.

GMWDB assists with the cost of training, including but not limited to books, tuition and fees, general supplies, tools, uniforms and shoes, certification, licensing, testing fees, drug testing for entrance into training, medical requirements for entrance into training, as well as supportive services for eligible participants.

Work-based training services are also available. More information about these services and how they are utilized in Georgia Mountains Area 2 are found in other plan sections.

Follow-Up Services

All participants receive follow-up services for a period of at least twelve months from the first day of unsubsidized employment. Each participant will be contacted a minimum of four times (once per quarter) after exit. Contact includes employment assistance, counseling, and supportive services when necessary.

3.3: Description of Rapid Response Services

Provide a description of how the local board will coordinate workforce development activities carried out in the local area with statewide rapid response activities.

The Georgia Department of Labor oversees the State's Rapid Response Dislocated Worker program. GMWDB and WSGM collaborate with GDOL to provide local Rapid Response services. In accordance with the federal Worker Adjustment and Retraining Notification (WARN) guidelines, Georgia's Rapid Response team responds to layoffs with 50 or more impacted workers from eligible employers. Georgia also seeks to respond to all layoffs of 25 or more employees. Georgia's approach to Rapid Response leverages the relationships and the knowledge of both GDOL and the LWDAs to help provide services to dislocated workers. This integrated approach ensures timely localized response that is available both during and after the layoff event.

Rapid Response teams include GDOL Rapid Response staff, WSGM staff, GDOL local career center staff, and other economic development and community partners as appropriate for each event. WSGM staff assist impacted workers with accessing community resource services including WIOA Title I funding. These resources are designed to support worker transition to a new job or career. WSGM regularly works with Trade Adjustment Act (TAA), Wagner-Peyser, and Unemployment Insurance staff from GDOL as well as TANF staff from the Georgia Department of Human Services (DHS) to provide all needed resources without duplicating services.

Rapid Response services are designed to provide customized on-site services at an impacted company. These services are designed to accommodate different work schedules to assist the employer as well as all impacted workers through the transition associated with job loss. Available services frequently include, but are not limited to:

- Employee information sessions
- Employee orientations on unemployment insurance and other GDOL Employment Services
- Employer assistance with filing Unemployment Compensation and Trade petitions
- Shared work/short-term compensation options
- Job fairs
- Development of OJT and customized training programs for transitioning workers
- Onsite transition centers and onsite training services, often through the use of the Mobile Training Units

- Workshops on a variety of topics, such as:
 - Job search techniques
 - Career explorations
 - Career assessments
 - Labor market information
 - Resume writing
 - Interview skills
 - Money management
 - Community resource exploration
 - Basic computer skills

- Educational opportunities through programs including:
 - WIOA Title I
 - HOPE and Pell grants and scholarships
 - Adult Education and GED assistance
 - Postsecondary school growth and demand programs
 - TAA, as eligible

Where possible, the Rapid Response team looks for opportunities to work with employers on layoff aversion efforts. Leveraging GDOL and WSGM partnerships and local employer relationships, the Rapid Response team gathers information and looks for opportunities for intervention in the workforce system. Through conversations with local employers and appropriate Rapid Response partners, the Rapid Response team identifies strategies such as IWT to help businesses upskill workers to become more productive or to learn new technologies.

3.4: Description of Youth Services

Provide a description and assessment of the type and availability of youth workforce development activities in the local area, including activities with youth with disabilities. This description and assessment shall include an identification of successful models of such youth workforce development activities.

Youth Services are a key part of the dynamic workforce system in Georgia Mountains Area 2. There are a variety of training options and resources available to area youth. The WorkSource Georgia Mountains staff actively seek out service providers and partners who can provide additional services to assist area youth in gaining needed skills as well as employment.

WSGM ensures that all fourteen basic elements are made available to youth who require those services. The following is a description of how the basic youth elements are provided:

Tutoring, Study Skills Training, Instruction, and Evidence-Based Dropout Prevention and Recovery Strategies: Currently this service is provided on an individual, case-by-case basis. When a participant is not performing well in school, the case manager will recommend tutoring through partner agencies. If other services are needed, funding may be provided to support those services.

WSGM staff also provide workshops with strategies towards dropout prevention and future planning. WSGM offers incentives to participants who achieve credits towards a high school diploma, GED, and for other progress and skills attainment benchmarks.

Alternative Secondary School Services or Drop-out Recovery Services: Credit recovery programs are designed to assist youth participants who have dropped out of high school or who have been withdrawn from high school. Credit recovery programs assist those participants with retrieving the credits necessary for diploma completion.

WSGM works with the Mountain Education Charter High School as well as the Lanier Career Academy and other alternative schools in Georgia Mountains Area 2. For students who are returning through the alternative school system, incentives and supportive services are offered for recovering credits and working towards a secondary diploma. WSGM staff partner directly with alternative school staff in referring and recruiting students. WSGM also offers workshops for career planning, including post-secondary and work-based opportunities such as internships and work experience.

Paid and Unpaid Work Experience: Through work experience and internships, WSGM provides youth participants exposure to workforce, career professionals, and work practices and expectations. Work experiences can help clarify career interest, enhance occupational skills, prevent learning loss over the summer, help youth develop a sense of provide, and help develop workplace-appropriate social skills. Youth must complete a work ethic workshop to be eligible for work-based learning opportunities. GeorgiaBEST is one of the work ethic workshop options available for youth participants.

WSGM partners with employers and partner agencies to identify work-based learning opportunities for participants. The most common opportunity is work experience, but dependent on the participant's needs and interests, other options such as on-the-job training, Registered Apprenticeship, and internships may also be appropriate.

Occupational Skills Training: WSGM offers assistance to eligible youth for post-secondary education and partners with eligible training providers to provide occupational skills training for in-demand fields in Georgia Mountains Area 2. Participants in this service may receive funding assistance to pay tuition costs, book costs, and other required materials and tools necessary for program participation. Supportive services are also offered to participants, including childcare assistance and transportation assistance. Occupational skills training participants are awarded funding for up to six semesters with a maximum training cost of \$10,000.

Education Offered Concurrently with and in the same context as Workforce Preparation: WSGM youth staff offer workshops to participants that include work ethic training, resume building, interview skills, "dress for success", character-building, and team building. GeorgiaBEST is incorporated into programming as appropriate.

Leadership Development: Leadership development opportunities include community service and peer-centered activities that encourage responsibility and other positive social and civic engagement.

WSGM staff offer monthly workshops that encourage team building with other WIOA participants. WSGM also partners with other agencies and regional partners to offer volunteer work with the hospital and other entities. Monthly workshop topics include:

- Future planning, including post-secondary exploration
- Character-building

- Organized team building activities
- Living a healthy life, including developing healthy relationships and drug and alcohol awareness
- Organized problem-solving activities
- Work ethic and worksite behavior
- Interviewing skills, resume building financial health and literacy
- Time management

Supportive Services: WSGM offers supportive services including transportation assistance and childcare assistance. Other support and needs-related payments may be offered on a case-by-case basis. Youth participants may also be eligible for incentives for completing workshops, work-training assignments, benchmark achievement, and credential completion.

Adult Mentoring: WSGM contracts with an Independent Living Mentor who provides one-on-one and group mentoring sessions as appropriate. Participants in specific services may also receive program design-specific mentoring. For example, Project SEARCH participants receive worksite and life mentors for the duration of their program enrollment. Mentors connect with participants both by phone as well as meeting face-to-face to offer guidance and support for participants. Mentors also encourage good character and social behavior.

WSGM also offers mentors for youth participating in work experience services. The mentor periodically visits the worksite and may act as a liaison when necessary. Work experience mentors encourage and prepare the mentee to become a mentor to other youth.

Comprehensive Guidance and Counseling: WSGM contracts with a counselor to provide mental health counseling in both one-on-one and group sessions. These sessions may be for preventative counseling or for managing mental health. Referrals are made for drug and alcohol abuse counseling.

Financial Literacy Education: Financial literacy education is provided for participants in a variety of methods. Financial education may be included in the participant's program design, may be administered through the monthly workshop series, and it may be provided in one-on-one sessions, as appropriate for each participant. As part of the youth conference, WSGM invites guest speakers from local banks to provide a workshop on financial literacy. WSGM also partners with Junior Achievement as a resource for financial literacy education.

Entrepreneurial Skills Training: WSGM provides workshops on entrepreneurial skills. Georgia Mountains partners with local businesses, the Center for Rural Prosperity and Innovation, Junior Achievement, and other local resources to provide options for entrepreneurial skills training.

Labor Market and Employment Information Services: Services such as career counseling and career exploration are made available to all participants to provide information about local labor market and in-demand industry employment opportunities. Participants may also utilize the WorkSource Georgia Portal and EmployGeorgia for independent resource review.

Participants attend a workshop that presents labor market information in an accessible and easy-to-understand format. Workshop curriculum typically includes: growth and demand industry careers and their education requirements, entry-level wages and possible growth in demand career pathways, awareness of “unusual” careers or careers that may not be as popular or well-known, and career exploration to match participants’ assessed skills and interests with in-demand career pathways.

Activities that Prepare for Transition to Post-Secondary Education and Training: WSGM staff utilize one-on-one sessions, group workshops, and individual assessments to assist participants in preparing to transition to post-secondary education and training. Participants are invited to career fairs and technical colleges and other schools, as well as tours of campuses. WSGM staff will also review career assessment to further assist participants in identifying growth and demand career fields that may be best for the participants. Participants may also be advised on the program credential lengths and stackable credential options within the selected career pathway. In some cases, services and/or assistance may be given through partners to support college entrance testing preparation.

Follow-Up Services: Each participant will be contacted no less than four times (a minimum of once per quarter) after exit. Contact includes employment assistance and supportive services when necessary.

WSGM has also worked to develop integrated programming designed to provide youth with seamless access to a variety of services in a setting that fully supports participants and encourages success. Below we have highlighted several innovative programs we are implementing to support area youth.

GED/Career Pathways Innovative Program

The WSGM Youth Department competitively procured innovative out-of-school youth services. The Request for Proposal was awarded to three technical colleges in Georgia Mountains Area 2: Athens Technical College, Lanier Technical College, and North Georgia Technical College. The program is designed to work with eligible youth between 16-24 years of age to complete their GED while having opportunities for dual enrollment in specific post-secondary certification programs, or for paid internships. The career pathway portion of this program is also available to assist young adults that already have a high school diploma but otherwise meet the eligibility criteria. All program participants must complete the GeorgiaBEST Certification before moving into the GED and/or career pathway portions of the program.

Route 180 Youth Center

The Route 180 Youth Center was opened in 2020 and is designed to provide a “safe” place for youth participants and potential participants. The Route 180 Youth Center mission is to assist in providing a pathway to employment for youth adults in Georgia Mountains Area 2 by equipping them through education, training, and advancing skills in a competitive market that will lead to self-sufficiency. The Center provides opportunities for growth, future/career planning, specified training, tutoring, workshops, work skills training, entrepreneurship skills development, mentoring, and peer groups.

The Route 180 Youth Center provides:

- GED tutoring
- Café
- General tutoring

- Work Excellence training
- Financial Literacy classes and workshops
- Entrepreneurship training
- Life skills
- Certification training
- Peer groups
- Game room

One newly introduced workshop is Cookies and Questions. This workshop is led by community partners and local business and discusses career topics and answers attendee questions about in-demand career pathways.

Project SEARCH Program

The Project SEARCH High School Transition Program is a unique, business-led, one-year school-to-work program that occurs entirely at the workplace. Total workplace immersion facilitates a seamless combination of classroom instruction, career exploration, and hands-on training through worksite rotations. Project SEARCH has been active in Hall County for more than ten years. WSGM plays a vital role in preparing youth for working the assigned rotation at the local hospital. WSGM utilizes WIOA funding to provide necessary work items such as school and work uniforms for eligible youth. WSGM also provides necessary supplies for classroom instruction including laptops, printers, and copy paper. During the Project SEARCH training period, eligible youth also receive transportation supportive service assistance.

WSGM also plays a role in assisting Project SEARCH youth develop skills to assist them in transitioning from high school to adult life. Youth attend weekly workshops prepared and presented by WSGM staff. These workshops teach skills in character-building, independent living, work ethics, interviewing, resume building, and budgeting. These topics complement the instruction presented by Project SEARCH instructors.

WSGM works with Northeast Georgia Medical System and other business partners to assist with subsidizing work experience for youth to provide them valuable experience that assists in the hiring process.

WSGM youth staff participate in monthly evaluation and employment planning meetings, including future planning to assist students in setting goals and identifying resources to further education or employment opportunities. Funding is available for WIOA-eligible youth to assist with approved post-secondary education or occupational skills training.

Transition to Success

The Transition to Success program is a collaborative transition program between GMWDB and the Lanier Tech Adult Basic Education program housed in the Department of Juvenile Justice School System. The program is currently being implemented at the Hall County Regional Youth Detention Center.

Lanier Tech's Adult Basic Education program provides a GED instructor to prepare eligible youth for the GED test. Once youth have passed the GED practice test, the GED instructor schedules testing at the

detention center. If participants complete and pass all portions of the GED, then the GED instructor may assist interested participants in applying for online college programs.

Youth who have successfully obtained a GED are encouraged to give back by assisting other inmates who are struggling to pass certain subjects. Youth are also given opportunities to motivate and encourage their peers that are struggling and may want to give up. These opportunities help build confidence and develop leadership skills in the youth.

GMWDB supports Transition to Success through a contract with Lanier Technical College to provide funding for the GED instructor as well as the GED testing fees for eligible youth. For youth interested in attending online college programs, WSGM works with participants to identify eligible training providers and pay for tuition and supplies.

WSGM staff also offer workshops and mentoring to incarcerated youth participating in Transition to Success. Workshops are offered by an Independent Living Mentor and provides mentoring on the transition process from incarceration back into the community. Workshops include the following topics:

- Character-building
- “So I have my GED – now what?”
- Mapping Your Future
- Soft skills training
- Employability skills
- Interviewing skills
- Dressing for success
- “How to Get a Job and Keep It”

Mentoring also includes: resume building, job search and placement assistance, one-on-one interview preparation, and meetings with social workers, probation officers, parents, and counselors to create a transition plan.

Annual Youth Conference

Every year, GMWDB hosts a youth conference designed to educate “at risk” youth and young adults ages 16-24. WSGM staff, partners, business and community partners, and motivational speakers all present. Topics include character building, establishing healthy personal and professional relationships, financial literacy, and work readiness. All attendees also participate in the “game of life,” a hands-on financial literacy program that educates students about budgets, bills, and how far a paycheck truly goes.

WSGM utilizes this conference as a recruitment tool to inform eligible individuals about the resources and services available through the one-stop system. Current and former participants also give testimonials about the program’s impact on their lives. The youth conference concludes with door prizes, including a grand prize of a laptop computer. All door prizes are donated by business and community partners.

3.5: Implementation of Work-Based Learning Initiatives

Provide a description of how the area will implement initiatives such as Incumbent Worker training programs on-the-job training programs, Customized Training programs, industry and sector strategies, career pathways initiatives, utilization of effective business intermediaries, and other business services and strategies designed to meet the needs of employers in the corresponding region in support of the business services strategy. If these services are not utilized, provide a description of why.

As part of a broader business services strategy, GMWDB has developed and implemented robust work-based learning programs to meet the needs of area employers. The insight gained from the sector strategies initiatives has led to the development of robust career pathway programs and awareness opportunities for jobseekers and participants. Additional sector strategies successes are discussed in Section 1.5.

One part of the business services strategy is the development and expansion of an array of services such as OJT, Incumbent Worker Training, Apprenticeships, Customized Training, and Internships. Through business services staff and contractors, employers can share their concerns and hiring issues and learn more about the WSGM options available to them. Many of the business services staff and contractors have business and economic development backgrounds, helping them to speak the employer's language and help employers understand the value of the program offerings. GMWDB also works closely with local Economic Developers and Chambers as intermediaries to help ensure increased awareness of the array of employer services available through the workforce system.

GMWDB is working to ensure that workforce services are accessible to employers of all sizes and industries. Outreach and public awareness are critical components of GMWDB's mission and strategic goals. GMWDB continues to build relationships with employers throughout Georgia Mountains Area 2 to secure GMWDB's place as a partner in developing and growing local businesses.

GMWDB is also working to identify additional technological enhancements and other ways to streamline the work-based learning development and onboarding process. WSGM staff are looking towards obtaining a Customer Relationship Management (CRM) platform, developing more online resources and initial application documents for work-based learning, and recording webinars and other technical assistance resources to support employers in determining which work-based learning initiative may be best for their business needs.

On-the-Job Training

OJT programs assist participants by placing them in employment opportunities to help them gain knowledge, hands-on experience, and skills needed for long-term success in demand industry sectors. OJT programs also benefit employers by offsetting the costs of hiring and training an employee who may not have been selected through their traditional hiring process.

GMWDB continues to expand its OJT program in demand industry sectors. GMWDB continues to develop and strengthen the pipeline from occupational skills training to OJT opportunities.

Incumbent Worker Training

GMWDB utilizes IWT to assist employers with financial assistance for expenses associated with new skills or skills upgrades for permanent full-time employees. IWT may be used as part of a layoff aversion strategy or may be used to support growth and advancement. Where possible, GMWDB works with the employer to backfill positions with other WIOA participants. GMWDB continues to align IWT opportunities with the GMWDB strategic goals and performance objectives.

Apprenticeships

Through the support of the local technical colleges and the state's American Apprenticeship Initiative grant, Georgia Mountains Area 2 has seen increased interest in Registered Apprenticeship programs for training workers in critical, skilled, hard-to-fill positions.

WSGM supports apprenticeships through funding ITA, OJT, and IWT costs as appropriate for each apprentice.

Customized Training

GMWDB continues to research the need for and interest in Customized Training. Many of the technical colleges have robust training opportunities through both credit and non-credit educational courses, so GMWDB has not seen much demand for Customized Training programming.

Internships

GMWDB utilizes short-term internships to provide an opportunity for adults with minimal work experience to gain hands-on experience and exposure to soft skills to assist them in identifying industries or career pathways that may interest them.

GMWDB values developing internships as a pipeline to long-term employment. GMWDB is working to find ways for internships to serve as a bridge to employment for current training participants who may not have work-based learning as part of their training curriculum.

3.6: Provision of ITAs

Provide a description of how training services in WIOA §134 will be provided through the use of ITAs. If contracts for the training services will be used, describe how the use of such contracts will be coordinated with the use of ITAs and how the local board will ensure informed customer choice in the selection of training programs regardless of how the training services are to be provided.

Individuals who are determined eligible for WIOA-funded training services may select an eligible training provider from the Georgia Mountains Workforce Development Board approved provider list. Individuals may also request to attend training at a provider on the TCSG-OWD approved provider list.

WIOA funds may be utilized for training in occupations that GMWDB have identified as growth or demand occupations, or in occupations where the participant has documented local employment prospects. As part of the application process, WSGM requires each applicant to research their chosen occupation and provide job postings, typical wage information, and information on the demand for the occupation. This research ensures that participants are aware of the expected salary and the opportunities for employment and growth within their chosen industry.

GMWDB has established a two-year time limit for ITA program completion. For the majority of programs, GMWDB limits ITA vouchers to \$6,000 the first year and \$10,000 in total costs. Certain exceptions may be made for medical programs, Registered Apprenticeship training, and other programs as identified in WSGM policy.

3.7: Entrepreneurial Skills Training and Micro-enterprise Services

Provide a description of how the area will coordinate and promote entrepreneurial skills training and micro-enterprise services.

WorkSource Georgia Mountains has access to a variety of resources to offer participants who want entrepreneurial skills training and micro-enterprise services.

The Manufacturing Development Center (MDC) serves as an incubator and accelerator for small businesses in an integrated environment at the Featherbone Communiversity center. The MDC is overseen by Brenau University and also provides participants access to rental space, assistance with business financials, and potential partnerships with a number of education institutions.

Access may also be available to the Appalachian Regional Commission's entrepreneurship and business development program, which provides support for expansion of the entrepreneurial ecosystem and for start-up and small businesses within the Appalachian Region. Georgia also has the Center for Rural Prosperity and Innovation. The Center serves as an information and resource hub for rural best practices, including small business and industry assistance and planning. The Center for Rural Prosperity and Innovation recently opened a North Georgia office, enabling easier access to resources and support.

Both the University of Georgia as well as the Georgia Department of Economic Development also offer small business development support that may be available to participants who want to open their own small business.

After conversations with interested participants, WSGM staff identify which resources and opportunities will be a best fit for participant success and make recommendations and referrals as appropriate.

For youth participants, in addition to the services mentioned above, workshops on entrepreneurial skills are offered on a regular basis.

3.8: Coordination with Education Programs

Provide a description of how the local board will coordinate education and workforce development activities carried out in the local area with relevant secondary and postsecondary education programs and activities to coordinate strategies, enhance services, and avoid duplication of services.

The Georgia Mountains Workforce Development Board works closely with TCSG, the University System of Georgia (USG), non-public postsecondary providers, and Registered Apprenticeship program providers to ensure customer choice through a broad array of educational offerings.

Participants are encouraged to enter for-credit programs with postsecondary credentials such as diplomas, certificates, and degrees. Both TCSG and USG also offer continuing education offerings which provide access to non-credit industry credentials, helping to create stackable credential and short-term training opportunities.

GMWDB, one-stop partners, and eligible training providers coordinate to ensure adequate training funds are available to support students without duplicating funding support. GMWDB ensures that Pell Grant, HOPE Scholarships, Zell Miller Scholarships, and other resources are utilized before WIOA funds are applied to the costs of training services. All participants must apply for financial aid, as applicable, through their training provider.

GMWDB also works closely with the Technical College System of Georgia's Office of Adult Education for the provision of adult education services. TCSG-OAE local providers are actively engaged in the one-stop system, including serving as affiliate sites. GMWDB has also awarded sub-recipient grants to local adult education providers for holistic services for Out-of-School Youth. Where appropriate, WSGM staff also refer participants in need of a high school diploma to the Mountain Education Charter System, where students can participate in night classes and other alternative education options to earn their high school diploma.

3.9: Description of Supportive Services

Provide a description of how the local board will coordinate workforce development activities carried out under this title in the local area with the provision of transportation, including public transportation, and other appropriate supportive services in the local area. Describe the coordination of transportation and other supportive services regionally, as applicable.

Georgia Mountains Area 2 has many fairly rural areas with minimal access to public transportation. Currently, the only direct access to public transportation is in Hall County. Due to limited routes, very few participants take advantage of public transportation. Given the distances to employment, education, and other needed services, WSGM offers transportation supportive services to eligible participants. Supportive service amounts are dependent on the number of miles between the participant's residence and the location of training and/or employment services.

GMWDB also offers childcare supportive services to eligible participants. All participants must first apply for assistance through the Childcare and Parents Services (CAPS) program available through the DECAL. Those who do not receive assistance through the CAPS program may be eligible for childcare supportive services. WSGM pays for childcare supportive services on days where participants are actively participating in educational or occupational training programs.

WSGM's current supportive services policies are included in Attachment 5.

3.10: Coordination with Social Services Programs

Provide a description of how the local board will coordinate with social service providers, including SNAP and TANF. The description should include the utilizations of both programs as a referral source.

WorkSource Georgia Mountains continues to grow its partnership with DHS through Temporary Assistance for Needy Families (TANF) and Supplemental Nutrition Assistance Program (SNAP). TANF and SNAP representatives are invited to all bi-monthly one-stop partner meetings which include a variety of one-stop partners as well as other community partners providing social services with Georgia Mountains Area 2. All attendees have an opportunity to share a brief update about their organization's services, and time is dedicated for collaboration and referrals between one-stop partners and other social service partners. Some meetings specifically feature a focus on different programs and the services offered. One-stop partner meetings regularly discuss leading practices for service integration, non-duplication of effort and resources, streamlined referral processes, and universal design principles.

WSGM staff and the One-Stop Operator also regularly participate on community boards, committees, and organizations to present information about One-stop services. Examples include United Way of Hall County's One Hall Committee on Economic Stability, Gainesville Salvation Army Advisory Board, Boy and Girls Club of Lanier, Rehabilitation Industries of Northeast Georgia (RING), and Girl Scouts of Historic Georgia.

TANF and SNAP staff are aware of the services available through the one-stop system and have received cross-training so that they can refer jobseekers to the one-stop for additional assessment and determination of eligibility. WSGM and other one-stop partners also refer partners to TANF and SNAP and log all referrals to keep track of all referrals made.

When participants are co-enrolled, WorkSource Georgia Mountains continues to work with DHS staff to share information about resources available through each program as well as participant outcomes. WSGM also utilizes the SNAP system of supportive services to supplement the supportive services available through WIOA to ensure that there is no duplication of services. This communication also assists in ensuring that participants are able to take advantage of program differences, such as the TANF supportive service Work Support Payments (WSP), which provides supportive services for up to a year after transitioning to employment.

4.0: Coordination with Core Partners

4.1: Description of the Workforce System

Provide a description of the workforce development system in the local area that identifies all relevant programs and how the local board will work with the entities to carry out both core and other workforce development programs to deliver well-aligned services in support of the strategies identified in the state plan. This should include programs of study authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 USC 2301 et. seq.).

Through the Georgia Mountains Area 2 one-stop system, GMWDB is able to offer a variety of services tailored to meet the needs of local business and jobseekers. These services may include:

- WIOA Title I Adult and Dislocated Worker services
- WIOA Title I Youth Services
- WIOA Title I Job Corps and Migrant and Seasonal Farmworker programs
- WIOA Title I Veterans' workforce programs

- Wagner-Peyser Act programs
- WIOA Title II Adult Education and Literacy activities
- Programs funded under Title I of the Rehabilitation Act
- Programs funded under Title V of the Older Americans Act
- Postsecondary vocational education activities funded under Carl D. Perkins Career and Technical Education Act (Carl Perkins Act)
- TAA and NAFTA Transitional Adjustment Assistance activities
- Local veteran's employment representatives (LVERs) and disabled veterans outreach programs (DVOPs)
- Employment and training activities under Community Services Block Grants and the Department of Housing and Urban Development
- Programs authorized under State employment compensation laws

All of the above partners present within Georgia Mountains Area 2 are part of the one-stop MOU and Infrastructure Funding Agreement that details the services and cost-sharing present in the region.

As noted elsewhere in the plan, GMWDB continues to grow and expand relationships with the partners providing these vital services within the region. Through GMWDB membership, one-stop system engagement, one-stop partner meetings, and other opportunities for collaboration and communication, the Georgia Mountains Area 2 one-stop system is stronger than ever and continues to grow. WSGM staff regularly participate in meetings with one-stop partners and participated in the Carl Perkins annual planning process for the majority of local Carl Perkins Act supported program in the region (Career, Technical and Agricultural Education programs in the local public school systems and occupational training programs at Athens Technical College, Lanier Technical College, and North Georgia Technical College). WSGM provided feedback about local growth and demand career pathways, updated information about resources and services available to bolster the services offered by Perkins Act recipients and subrecipients, and learned more about the vocational education strategy and direction being taken by each of the local programs.

GMWDB provides WIOA Title I Adult and Dislocated Worker Services and WIOA Title I Youth Services. These programs offer many career services through the physical one-stop centers as well as the mobile training units. Career services include individualized job search, resume and cover letter writing assistance, workforce skills and typing training, computer skills training, Microsoft Office training, and skills assessments for OJT, GED, and career aptitude. Eligible participants may also receive more intensive services including: assistance with training, such as funding for tuition, books, and the cost of program supplies; supportive services and needs-related payments; and work-based learning programs such as apprenticeships, internships, OJT, IWT, and layoff aversion. Through WIOA Title I and coordination with the partner programs listed above, Georgia Mountains Area 2 is able to meet many of the needs of local jobseekers and employers. GMWDB will continue to develop strategic relationships and partnerships to expand access to the resources and services available throughout the region.

More information about coordination with specific programs is found below.

4.2: Coordination with Wagner-Peyser

Provide a description of plans and strategies for, and assurances concerning, maximizing coordination of services provided by the state employment service under the Wagner-Peyser Act (29 USC 49 et. seq.) and services provided in the local area through the one-stop delivery system, to improve service delivery and avoid duplication of services.

The Georgia Department of Labor has four Career Center offices serving the residents of Georgia Mountains Area 2. They are: Gainesville Career Center (serving Dawson, Forsyth, Hall, Lumpkin, and White Counties); Toccoa Career Center (serving Banks, Franklin, Hart, and Stephens Counties); Blue Ridge Career Center (serving Towns and Union Counties); and Habersham Career Center (serving Habersham and Rabun Counties).

GDOL Career Centers offer services including, but not limited to:

- Employ Georgia access and assistance
- Job placement assistance
- Unemployment insurance claims filing and case management
- DVOP and LVER representatives and monthly workshops
- Specialized ex-offender workshops
- Specialized assistance for migrant and seasonal farmworkers
- Resource center and computer programs including resume development, TapDance, typing tutorials, labor market information, in-demand field information, training and education resources, and financial aid options
- Information on GED, educational training, and occupational training offerings
- Job fairs
- TAA services
- Limited English Proficiency (LEP) services including language line, bilingual staff, technology, and written materials in a variety of languages
- Vocational assessments
- Referrals to partner programs and services such as WIOA, GVRA, Adult Education, HomeSafe, and other community and faith-based resources as appropriate
- Job clubs

GDOL's Business Services Unit often hosts recruitment events (including recruitment events specifically for veterans) in the career centers as well as in other locations throughout the region. GDOL's Business Services Unit engages partners such as WSGM and the local technical colleges in hosting these events. Recruitment events serve employers and jobseekers. Employer Committees also utilize the career centers to host training seminars and other meetings for employers.

GDOL also has TOPPSTEP (The Offender Parolee Probationer State Training Employment Program) available to transitioning citizens. TOPPSTEP is a joint effort of the Georgia Department of Labor, Georgia Department of Corrections, Georgia Department of Community Supervision, and the State Board of Pardons and Paroles. TOPPSTEP's mission is to help every returning citizen become gainfully employed and self-sufficient. This program provides a variety of resources including access to job openings, federal

bonding and WOTC, community resource access for clothing, food banks, housing assistance, etc., retraining and OJT resources, specialized job search workshops, online resume tutorials, and other resources available through the DVOP and LVER program. Workshops are regularly held at corrections centers throughout Georgia Mountains Area 2 and GDOL career center staff members regularly collaborate with local Probation Office staff.

GMWDB continues close coordination with all GDOL services available within Georgia Mountains Area 2. Through these collaborative efforts, a greater spectrum of workforce development resources will be made available to area customers.

4.3: Coordination with Adult Education

Provide a description of how the local board will coordinate workforce development activities carried out in the local area with the provision of adult education and literacy activities under Title II in the local area, including a description of how the local board will carry out the review of local applications submitted under Title II, consistent with subparagraphs (A) and (B)(i) of section 107(d)(11) and section 232 of WIOA.

GMWDB coordinates workforce development activities carried out in Georgia Mountains Area 2 with the eligible providers of adult education and literacy activities under Title II. Adult education and literacy activities include academic instruction and education services below the post-secondary level that increase an individual's ability to:

- Read, write, and speak English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its recognized equivalent
- Transition to post-secondary education and training
- Obtain employment

In accordance with federal regulation, eligible providers may receive adult education funding for the delivery of any of the following adult education and literacy activities:

- Adult education
- Literacy
- Workplace adult education and literacy activities
- English language and acquisition activities
- Integrated English literacy and civics education
- Workforce preparation activities
- Integrated education and training

Adult education and literacy activities may also be combined, concurrently and contextually, with both workforce preparation activities and workforce training for a specific occupation or occupational cluster. Local adult education providers regularly coordinate with WSGM and other one-stop partners to develop collaborative training and resource provision to eligible participants.

Currently, three technical colleges provide adult education and literacy activities under Title II in Georgia Mountains Area 2. As part of the one-stop system in Georgia Mountains Area 2, each technical college has designated a staff member to speak with jobseekers and direct them to the appropriate learning center for support.

Adult education programs from all three technical colleges provide quality instruction to residents of all counties to ensure eligible individuals receive their High School Equivalency Diploma (GED, HiSET, or Career Plus HSE as appropriate) in a timely manner. Quality soft skills training and effective study skills are emphasized in the classroom. Faculty members and peer tutors at each of the three colleges can also provide free tutoring once a student is enrolled in the credit program. All three colleges also provide evidence-based dropout prevention and recovery strategies and are involved in the entire process, from orientation all the way through student follow up. Instructors design lessons aligned to the College and Career Readiness Standards (Or English Language Proficiency Standards for students in English Language Acquisition classes) and use resources based on the latest revisions.

In addition to basic skills training, the Adult Education program at Athens Technical College offers English as a Second Language (ESL) classes and Civics/Citizenship classes to students in an eleven-county service area. Athens Tech also offers Digital Literacy Certification pathways, GeorgiaBEST Certification, and short-term Integrated Education and Training (IET) pathways including ManufactuREADY, Welding to Work, and Home Health Aide. These pathways prepare students for internships and/or direct job placement with local employer partners.

Athens Technical College was also one of five technical colleges selected to provide a pilot High School Equivalency Career Plus program. This program allows students who have not obtained their high school diploma or GED the opportunity to simultaneously earn two technical certificates of credit and a high school equivalency credential. This integrated program reduces the time to complete college and enter employment, making it an appealing option for many jobseekers. Program pathways include HOPE Career Grant approved Technical College Certificates in high demand career fields such as diesel, welding, commercial truck driving, computer programming, early childhood care and education, health science, industrial maintenance, and precision manufacturing.

In accordance with WIOA § 232 and § 107(d)(11)(B), GMWDB also reviews and makes recommendations on all local applications to provide adult education and literacy activities under Title II. This review confirms that the services and activities in the proposer's application are aligned with the GMWDB Local Plan. Where appropriate, GMWDB also provides recommendations to promote further alignment between local adult education providers and the local plan.

4.4: Coordination with Vocational Rehabilitation

Provide a description of the cooperative agreement between the local Georgia Vocational Rehabilitation office and the local board which describes efforts made to enhance the provision of services to individuals with disabilities and to other individuals, cross-train staff, provide technical assistance, share information, cooperate in communicating with employers, and other efforts at cooperation, collaboration, and coordination.

GVRA closely collaborates with WIOA partners to provide a wide variety of workforce development services for individuals with disabilities, including students and youth with disabilities, to offer them multiple opportunities to be empowered to maximize employment, economic self-sufficiency, independence, and inclusion. GVRA will continue to work collaboratively with all the core programs, as well as other state agencies, to both integrate and embed vocational rehabilitation services as efficiently and effectively as possible.

To facilitate expanding programmatic accessibility at the local Comprehensive One-Stop Center, GVRA provides assistive work technology-related services for eligible individuals with disabilities. Additional supports delivered, as requested, to the One-Stop locations may include: assistive technology assessments and training that focuses on disability awareness for staff, providing services using the universal design model, and basic information on how to use assistive technology equipment. These supports are intended to remove programmatic barriers, increase accessibility, and maximize resources.

WSGM's One-Stop system engages youth in customized career pathways through collaborative partnerships. GVRA provides transition services to out-of-school youth with the timely development and approval of an Individualized Plan for Employment, with the goal of increasing the number of students who achieve competitive integrated employment.

GVRA's Employment Services team also collaborates with core partner programs in support of individuals with disabilities securing competitive integrated employment. GVRA Employment Specialists interact with businesses to identify specific employer workforce needs and to provide employers with qualified candidates to meet those needs. They also interface with employers to create experiential opportunities for individuals with disabilities, such as on-the-job training and work-based learning. Additionally, educational opportunities are available to businesses, such as information about the benefits of hiring individuals with disabilities, job accommodations, disability awareness, and federal contractor requirements. The goal is to increase employer interest and for more businesses to hire individuals with disabilities.

To complement the utilization of the technical college system, GVRA will further leverage relationships with educational institutions to enhance GVRA services in post-secondary schools. GVRA provides support to eligible students in their pursuit of achieving their post-secondary academic and training goals, including those thriving in an inclusive post-secondary education program.

5.0: Performance, ETPL, and Use of Technology

5.1: Description of Performance Measures

Provide a description of the local levels of performance negotiated with the Governor and chief elected official pursuant to WIOA § 116(c), to be used to measure the performance of the local area and to be used by the local board for measuring the performance in the local area of the local fiscal agent (where appropriate), eligible providers under subtitle B, and the one-stop delivery system.

PY19 performance measures are included in Attachment 6. At the time of local submission, PY20 performance negotiations had not been completed. Once PY20 performance is finalized the plan will be updated to include those performance measures.

5.2: One-Stop System Performance and Assessment

Provide a listing of locally developed one-stop performance standards and describe the criteria used to develop the performance standards. Describe how the one-stop system and regional service delivery is assessed by the local board.

GMWDB continues to utilize WIOA performance measures in assessing the performance of the one-stop system. Utilizing data available in FutureWork Systems, an online tool that provides LWDA-level performance indicator reporting, WSGM staff report on the WIOA Performance Measures at every called board meeting, keeping GMWDB members updated on the progress of all performance goals.

GMWDB has also identified additional criteria that assist in presenting a comprehensive look at system performance. At each GMWDB meeting, the One-Stop Operator reports one-stop metrics including WIOA Title IB applications received, traffic through the comprehensive one-stop, attendance at program overview sessions, and number of WIOA Title IB applicants deemed eligible to send to case management for additional services.

Each of WSGM's partners also have their own goals, objective, and performance measures that demonstrate their success in serving the citizens of Georgia Mountains Area 2. All partners share best practices, new ideas, and other ways to assist with performance achievement during the partner meetings.

GMWDB is also responsible for reviewing and certifying the one-stop system and all centers at least once every three years.

5.3: ETPL System

Describe the regional Eligible Training Provider System, including the elements listed below.

5.3.a: Provide a description of the public notification to prospective providers.

The Georgia Mountains Workforce Development Board accepts new training provider and new training program applications on an ongoing basis. Application forms are available on GMRC's website. Submitted applications are reviewed by WSGM staff and presented at the next called board meeting.

5.3.b: Provide a description of how the board(s) evaluates providers and proposed training programs for initial eligibility, based on (at a minimum) criteria of proven effectiveness, local employer/industry demand, accreditation and customer accessibility.

WSGM staff review the application and complete the pre-award application checklist. This checklist reviews applications for responsiveness criteria to determine if the application is responsive and eligible for full review. For non-responsive applications, the submitter is notified in writing that their application was non-response and the reason(s) for the determination.

For applications that have been determined responsive, WSGM staff complete the Evaluation Criteria for Provider Agreements. A copy of the Evaluation Criteria is included as Attachment 7.

For new providers or programs, WSGM staff conduct an on-site pre-operational review of the training institution and the programs under review. WSGM staff may waive the on-site pre-operational review if

WIOA-funded training was provided within the last two years and there was no change in the facility, program, equipment, or other elements material to the program of study.

For organizations that are not physically located within the WorkSource Georgia Mountains geographic area, WSGM staff will ascertain if on-site reviews or evaluations have been conducted by the local WDB. Results will be documented as part of the application review.

WSGM staff present all responsive applications to the GMWDB during their regularly scheduled meetings. Presentation will include summaries of provider information, program(s) of study information, performance measures, costs, and other information relevant to the review process. GMWDB may choose to approve, not approve, conditionally approve, or delay a decision and request additional provider information. All applicants are notified of the GMWDB's action within five business days of the board meeting.

For all approved and conditionally approved providers, WSGM staff submit those provider applications to TCSG-OWD. TCSG-OWD reviews, evaluates, and certifies that the provider meets statewide eligibility criteria. These criteria include: application adherence to local policy; minimum state performance standards; review of State and Federal debarment, suspension, or voluntarily exclusion status; and other eligibility factors established by the state.

TCSG-OWD notifies Local Workforce Development Boards of provider eligibility determination electronically. The State is responsible for maintaining the State-wide Eligible Training Provider List.

After receiving notification from TCSG-OWD, WSGM reaches out to approved providers to establish provider agreements. These agreements must be signed prior to the enrollment of any participant.

5.3.c: Provide a description of the formal appeals process for aggrieved ITA customers and providers of unapproved training programs.

ITA customers and providers of unapproved and ineligible training programs who are aggrieved may use formal appeals processes outlined in the ITA agreement and the provider application. Processes are also available in the Rights Statement (included as Attachment 2) on the WSGM website.

5.3.d: Provide a description of the ongoing process used to update the data on the eligible providers list (exclusive of the state-conducted continued eligibility process).

WSGM Staff make regular updates to the local ETPL for program additions, revisions, or other updates. WSGM also conducts periodic reviews to ensure that all programs on the local ETPL are still offering the eligible programs and are in good standing.

Program performance is monitored annually for all providers with WIOA participants currently enrolled. Institutions may be removed from the approved provider list if monitoring reveals non-compliance with the act. Non-compliance may include the following situations:

- If inaccurate information regarding a program or provider is intentionally supplied to the GMWDB, a termination of eligibility will occur. This termination of eligibility will remain in effect

for a minimum of two years.

- If the GMWDB or the state agency monitoring the ETPL determines that an eligible provider has substantially violated any requirements under the Act, the provider must commence corrective action as deemed appropriate or risk program approval. Substantial violations include the failure to submit timely and accurate information for the ETP as well as for initial and continued eligibility. If a provider files to take appropriate corrective action for a substantial violation, a termination of eligibility will occur and will remain in effect for a minimum of two years.
- If a provider's program fails to meet minimum established local and State performance levels, the provider's eligibility to receive funds for that program may be suspended for a period of one year. The program may reapply under the initial eligibility criteria if they can provide documentation of successful performance attainment with all students prior to the next program year. Reapplication procedures may begin no earlier than 90 days preceding the beginning of the one-year exclusion period.

A provider may also be removed if it loses its license or the accreditation of its accrediting body, or if it is inactive for a period of three program years.

5.3.e: Provide a description of any regional policies or agreements for ITAs or training providers.

WorkSource Georgia Mountains' policies and procedures for ITAs and training providers are included as Attachment 8.

5.3.f: Provide a description of the process to track and manage all ITA activity.

GMWDB utilizes the services of a GMRC Billing Specialist to monitor ITA obligations and associated supportive service activity. The GMRC Billing Specialist is also responsible for receiving and reviewing invoices from providers and subrecipients.

GMWDB tracks all ITAs in WorkSource Georgia Portal, the statewide case management system. GMWDB also utilizes TrackSource to track all participants' ITAs, supportive service costs, and other participant information.

5.3.g: Provide a description of local board policy on use of statewide eligible training provider list (including financial and duration limits, out-of-area training, service to out-of-area customers, etc.).

GMWDB maintains a comprehensive training provision policy that includes the recognition of the statewide eligible training provider list as well as financial caps, duration limits, out-of-area training eligibility, and service to out-of-area customers. This policy is included as Attachment 8.

5.3.h: Provide a description of how registered apprenticeship programs are added to the ETPL.

GMWDB has established a policy that specifically addresses registered apprenticeship program eligibility, including automatic inclusion on the state ETPL and local ETPL inclusion upon notification from the Registered Apprenticeship sponsor. The financial caps and duration modifications are included in the WSGM training provision policy, found in

Attachment 8. GMWDB has also modified provider agreements to address the automatic ETPL inclusion and the waiver of the performance requirements and eligibility review process.

5.4: Implementation of Technology

Provide a description of the technology used to enhance customer (participant and business) experience and any additional data analytics used to enhance planning and measure outcomes beyond mandated performance measures.

GMWDB has embraced a variety of technology-advancement initiatives to ensure enhanced access and support to customers. GMWDB utilizes the Mobile Training Units to provide additional resources throughout Georgia Mountains Area 2.

WSGM utilizes SARA, a cloud-based communications tool that streamlines communications with participants through texts and emails. SARA also allows jobseekers to upload documentation from their phones, reducing the need for office visits to collect intake paperwork, supportive service documentation, or other eligibility paperwork. SARA is used for intake eligibility review and submission of supporting documentation. It is also used for case management and participant follow-up. The addition of text communications has improved response rates from participants and reduced the number of office visits necessary for intake documentation collection and eligibility review.

WSGM is also exploring the use of a CRM platform to ensure coordinated business services and business outreach among partner staff.

As part of the Comprehensive Economic Development Strategy established by the GMRC Economic Development Division, several benchmarks were established to better track local and regional economic development performance. These measures also serve as strong indicators on the overall economic health of the region's communities and citizens. In the Workforce Development performance category, GMRC CEDS has identified the following measurable benchmarks: job growth in non-manufacturing industries, average wage growth, unemployment rate, SAT scores, educational attainment, and drop-out rates. GMWDB works with GMRC to continue tracking and reviewing regional performance against these measures.

6.0: State Initiatives and Vision

6.1: State Branding

Provide a description for how the area has adopted and will continue to utilize the state brand.

The Georgia Mountains Workforce Development Board and WorkSource Georgia Mountains have embraced the adoption of the WorkSource Georgia brand. The WorkSource Georgia brand is prominently displayed throughout the Comprehensive One-Stop, including wayfinding signs and building identification signs. WSGM has also updated the branding of all outreach material, including a comprehensive business services outreach guide. WorkSource Georgia also utilizes the brand through the One Stop website.

6.2: Priority of Service

Describe how the area will identify and administer the state's priority of service policy. Identify if the region will add target populations in addition to those specified by state and federal policy.

All persons eligible for priority of service will be identified at the point of entry to one-stop programs and/or services so they can take advantage of priority of service. Points of entry include the WSGM Comprehensive One-Stop, WSGM affiliate one-stops, the Mobile Training Units, and the WSGM and One-Stop websites. All persons will be made aware of their entitlement to priority of service, the full array of programs and services available to them, and any applicable eligibility requirements for those programs and/or services.

More details about GMWDB's priority of service requirements are found in the WSGM priority of service policy found in Attachment 9.

6.3: Alignment with State Goals

Describe how the area will align with each of the goals listed in the State Unified Plan.

6.3.a: Utilize sector partnerships to inform and guide strategic workforce development strategies and enhance partnership coordination.

GMWDB has made significant progress in implementing TCSG-OWD's sector partnership program to provide assistance to advanced manufacturers in Georgia Mountains Area 2. Details of GMWDB's progress can be found in Section 1.5. GMWDB is working to develop a career pipeline to assist employers in meeting both immediate and long-term workforce needs. GMWDB regularly collaborates with the local K-12 education systems as well as post-secondary education partners to share information about industry needs and ensure that all partners are working together to design workforce development strategies. WSGM is currently researching CRM systems for business services to ensure that all partners providing business services within the sector partnership industries are communicating and partnering on developing resources and solutions to offer business and industry partners.

GMWDB receives regular updates about sector partnership efforts and successes at board meetings.

GMWDB has embraced the sector partnerships framework and looks forward to implementing the framework in additional industry sectors in the coming years.

6.3.b: Further develop regional integration to ensure streamlined services to both businesses and individuals.

While Georgia Mountains Area 2 is only comprised of one Local Workforce Development Area, WSGM regularly works with LWDAs in bordering regions on issues such as business services, eligible training provider review, and other issues where inter-region collaboration enhances the services GMWDB is able to offer participants. GMWDB has also embraced the "no-wrong door" approach advocated by USDOL and TCSG-OWD. Through this approach, WSGM ensures seamless service delivery throughout the region. One-stop partners are represented on the GMWDB and are engaged and active participants.

6.3.c: Utilize the workforce system to increase statewide prosperity for rural and urban communities.

Georgia Mountains Area 2 is comprised of both urban centers and rural communities. This mix of community size and community needs has led GMWDB to a multi-pronged approach to ensuring workforce system resources are

available to meet all needs. GMWDB currently has two mobile units that are regularly sent into all thirteen of Georgia Mountains Area 2's counties. WIOA Services Program Overviews are conducted in-person in each county at least once every six months in addition to the weekly orientations in Hall County.

GMWDB strategically focuses on business services as a method for increasing statewide prosperity. The business services available through WIOA and WSGM one-stop partner programs meet the needs of Georgia's employers while also providing opportunities for jobseekers to enter growing and demand industry sectors with jobs that allow for growth and advancement. An emphasis on sector strategies allows us to connect with industry partners of all sizes to learn of needs common to the industry. By understanding common needs regardless of business size or sub-industry specification, GMWDB is able to develop system-level response and solutions to meet industry needs. Sector strategies also brings secondary and post-secondary education partners to the table to allow the workforce system to create a pipeline of workers to meet industry's long-term workforce needs.

WSGM has also partnered with local technical colleges to promote Registered Apprenticeship opportunities, with the technical colleges often serving as the program sponsor. Registered Apprenticeship allows businesses of all sizes to access specialized training and educational opportunities while also assisting jobseekers who may not be able to attend traditional full-time educational opportunities.

WSGM regularly partners with the technical colleges on creating and promoting economic development resources and solutions to regional employers. Technical college economic development staff regularly attend WSGM Business Services meetings to share information about employer needs and ensure there is no duplication of services or resource delivery.

GMWDB also has a variety of entrepreneurial resources to offer participants as outlined in Section 3.7.

6.3.d: Align the workforce system with education systems at all levels.

GMWDB has a robust relationship with both secondary and post-secondary education providers in Georgia Mountains Area 2 including public and private secondary school systems, adult education providers, TCSG, USG, and DECAL as appropriate. GMWDB membership includes both a technical college and an adult education representative. Through WSGM's sector strategies development, Georgia Mountains Area 2 has created a robust group of community partners committed to linking secondary and post-secondary education offerings with the needs of local business and industry partners.

WSGM's business services team regularly works with local secondary school systems to provide insight and connections on growth and demand industry sectors. WSGM is also looking to implement short-term training options for students immediately after high school graduation to provide them with exposure to demand occupations as well as an initial credential to assist them with finding employment or continuing their post-secondary education. WSGM's youth team also works with local high schools to identify students who may need additional assistance and support succeeding in a post-secondary environment.

WSGM also works with local adult education providers and Mountain Education Charter School system to identify resources and opportunities for jobseekers to obtain their GED or high school diploma and continue their career development.

GMWDB regularly advertises the opportunity for educational providers to be included on the local ETPL and has developed streamlined processes for currently approved providers to request approval for additional programs of

study. GMWDB will continue to engage local education providers to ensure a wide variety of institutions and programs are represented on the local ETPL.

6.3.e: Alleviate a tightened labor market by increasing the participation of strategic populations in the workforce system.

GMWDB is committed to mitigating barriers for all jobseekers who need assistance entering or staying in the labor market. WSGM's Comprehensive One-Stop regularly hosts partner meetings to discuss common barriers and the resources available to assist jobseekers in overcoming those barriers. The one-stop system also emphasizes universal design to ensure the greatest possible level of accessibility for all jobseekers and individuals who may seek assistance from the one-stop system.

WSGM also regularly utilizes the mobile units to provide access to communities and populations that may otherwise have limited accessibility to the one-stop system.

GMWDB has developed programs focusing on returning citizens in both the juvenile and adult detention centers. These programs include assistance with obtaining a GED as well as occupational training in growth and demand industries that provide returning citizens with career pathway opportunities.

GMWDB works with GVRA to integrate programs and provide resources for individuals with disabilities. WSGM's Youth department regularly works with the local foster care system to identify and support youth who may need assistance with career search and occupational training.

WorkSource Georgia Mountains also utilizes SARA, a cloud-based communications tool that streamlines communications with participants through texts, email, and other in-app communications. SARA reduces the number of office visits required for paperwork submission and other administrative tasks. SARA streamlines the intake process and allows for adaptive case management, allowing for more flexible and responsive assistance for individuals with barriers to entry into the workforce.

For transitioning service members and veterans, WSGM has a priority of service policy. WSGM also works closely with GDOL's DVOPs and LVERs to understand the needs of this population and how to align their needs with the workforce needs of local demand industries.

Attachment 1: GMWDB In-Demand Occupation List

Demand Occupations List

WorkSource Georgia Mountains provides occupational specific skills training for industries that are stable or have projected growth in the 13-county North Georgia region comprised of the following counties: Banks, Dawson, Forsyth, Franklin, Habersham, Hall, Hart, Lumpkin, Rabun, Stephens, Towns, Union and White.

This list serves as a guide for in-demand jobs and is not meant to be an all-inclusive list of acceptable WIOA funded occupational skills training options. There may be additional occupations in which demand occurs based on the job market or specific opportunities within the broad spectrum of occupations. This list includes occupations that show a favorable mix of projected long-term job growth, projected annual job openings, and median wages. WIOA customers seeking training in an occupation not on this Demand Occupations List may discuss the appropriateness and relevance of the proposed training with their career advisor for additional consideration (approval is at the discretion of the Local Workforce Development Board). WIOA customers can learn more about additional occupations at www.onetonline.org. *Notes occupations/training targeted to youth or special populations.

SOC Code (ONET-8)	Occupation Title	Total Jobs	Average Hourly Wage	10-Year Total New Demand	Typical Education Needed for Entry	Typical On-the-Job Training Needed	Median Wage
Business & Financial Operations Occupations							
13-1071	Human Resources Specialists	826	\$25.85	990	Bachelor's degree	None	\$24.17
13-1111	Management Analysts	1,121	\$37.07	1,389	Bachelor's degree	None	\$32.62
13-2011	Accountants & Auditors	1,697	\$31.72	2,06	Bachelor's degree	None	\$28.92
13-2051	Business Operations Specialists, All other	1,049	\$32.59	1, 291	Bachelor's degree	None	\$29.62
Computer & Mathematical Occupations							
15-1121	Computer Systems Analysts	541	\$40.43	668	Bachelor's degree	None	\$38.49
15-1131	Computer Programmers	330	\$34.77	351	Bachelor's degree	None	\$31.31
15-1132	Software Developers, Applications	902	\$46.28	1,265	Bachelor's degree	None	\$43.32
15-1133	Software Developers, Systems Software	486	\$45.67	597	Bachelor's degree	None	\$44.47
15-1142	Network and Computer Systems Administrators	407	\$38.31	497	Bachelor's degree	None	\$36.71
15-1151	Specialists	989	\$23.76	1,229	Some college, no degree	None	\$22.54

Attachment 2: WSGM Rights Statement

WORKSOURCE GEORGIA MOUNTAINS
GEORGIA MOUNTAINS REGIONAL COMMISSION
P.O. Box 2278, GAINESVILLE, GA 30503
(770) 538-2727 PHONE ♦ (770) 538-2729 FAX

RIGHTS STATEMENT

Equal Opportunity Is The Law

It is against the law for WorkSource Georgia Mountains/Georgia Mountains Regional Commission (WSGM/GMRC) (as the recipient of federal financial assistance) to discriminate on the following bases: Against any individual in the United States, on the basis of race, color, religion, sex (including pregnancy, childbirth, and related medical conditions, sex stereotyping, transgender status, and gender identity), national origin (including limited English proficiency), age, disability, or political affiliation or belief, or, against any beneficiary of, applicant to, or participant in programs financially assisted under Title I of the Workforce Innovation and Opportunity Act, on the basis of the individual's citizenship status or participation in any WIOA Title I-financially assisted program or activity. The recipient must not discriminate in any of the following areas: Deciding who will be admitted, or have access, to any WIOA Title I-financially assisted program or activity; providing opportunities in, or treating any person with regard to, such a program or activity; or making employment decisions in the administration of, or in connection with, such a program or activity.

Recipients of federal financial assistance must take reasonable steps to ensure that communications with individuals with disabilities are as effective as communications with others. This means that, upon request and at no cost to the individual, recipients are required to provide appropriate auxiliary aids and services to qualified individuals with disabilities. People with hearing impairments may contact the Georgia Relay Center by calling TTY 1-800-255-0056, Voice 1-800-255-0135 or dialing 711.

Discrimination Grievance Procedures

If you think you have been subjected to discrimination under a WIOA Title I-financially assisted program or activity, you may file a complaint within one hundred and eighty (180) days from the date of the alleged violation with either:

WorkSource Georgia Mountains
Georgia Mountains Regional Commission
Equal Opportunity Officer:
Andrea Newsom
P.O. Box 1720
Gainesville, GA 30503
770-538-2626
anewsom@gmrc.ga.gov

Application for a Workforce Innovation and Opportunity Act (WIOA) funded program **does not create an entitlement** to services, and nothing in the Act shall be construed to establish a right of action for an individual to obtain services under WIOA.

Technical College System of Georgia (TSCG) Office of Workforce Development (OWD)
Equal Opportunity Officer/Compliance Director
1800 Century Place NE, Suite 150
Atlanta, GA 30345-4304
404-679-1371
wioacompliance@tcsge.edu

The Complainant may file their discrimination-based complaint with the United States Department of Labor's Civil Rights Center at

<http://www.dol.gov/oasam/programs/crc/external-enforc-complaints.htm>. Or by contacting:

Director of Civil Rights

U.S. Department of Labor (USDOL)

200 Constitution Ave, NW Room – N4123

Washington, DC 20210

Use form at: <http://www.dol.gov/oasam/programs/crc/DL1-2014A-Rev-April-2011.pdf>

People with hearing impairments may contact the Georgia Relay Center at 1-800-255-0056 or by dialing 711.

1. If the Complainant chooses to file the discrimination complaint with the WSGM/GMRC or with TCSG, the Complainant must wait either until the recipient issues a written Notice of Final Action, or until ninety (90) days have passed (whichever is sooner), before filing with the Civil Rights Center (see address above).
2. The Complainant has the right to be represented in the complaint process by an attorney or other representative.
3. If the recipient does not give the Complainant a written Notice of Final Action within 90 days of the day on which you filed your complaint, the Complainant may file a complaint with CRC before receiving that Notice. However, you must file your CRC complaint within thirty (30) days of the 90-day deadline (or within one hundred and twenty (120) days after the day on which the Complainant filed the complaint with the recipient).
4. If the recipient does give the Complainant a written Notice of Final Action on the complaint, but the Complainant is dissatisfied with the decision or resolution, the Complainant may file a complaint with CRC. The Complainant must file the CRC complaint within 30 days of the date on which the Complainant received the Notice of Final Action.
5. Further, WSGM/GMRC shall fully cooperate with any local, state, or federal investigation in accordance with the aforementioned proceedings or with any criminal investigation.

The Civil Rights Act of 1964, as amended, and the WIOA of 2014, as amended, guarantees the right to file a complaint or alleged action concerning discrimination as stated above.

Fraud, Abuse, Waste, Misconduct or Illegal Activity Grievance Procedures

In the event that a complaint involves allegations of fraud, abuse, waste, misconduct or illegal activity stemming from a WIOA-funded program, the Complainant shall immediately contact one of the entities listed below:

Technical College System of Georgia Office of Workforce Development

Equal Opportunity Officer/Compliance Director

1800 Century Place NE, Suite 150

Atlanta, GA 30345-4304

404-679-1371

wioacompliance@tcsge.edu

Georgia Office of Inspector General

2 M.L.K. Jr. Dr., SW

1102 West Tower

Atlanta, GA 30334

1-866-435-7644 (1-866-HELPOIG)

Complaint form may be found at <http://oig.georgia.gov/file-Complaint>

Office of Inspector General, USDOL

US Department of Labor

200 Constitution Ave., NW, Room S-5506,

Washington, DC 20210

1-800-347-3756

Complaint form may be found at <https://www.oig.dol.gov/hotlinecontact.htm>

General or Non-Discriminatory Grievance Procedures

1. Complaints arising at the WorkSource Georgia Mountains office level must be in writing, signed by the Complainant, dated within 120 days of the alleged incident, and must include the following information:
 - a. the full name, telephone number (if any) and address of the person making the complaint (Complainant);
 - b. the full name and address of the Respondent against whom the complaint is made;
 - c. a clear and concise statement of fact, including pertinent dates, and witnesses (if any) constituting the alleged violation, and
 - d. the type of relief requested.

A complaint will be considered to have been filed when the reviewing authority receives from the Complainant a written statement, including information specified on the complaint form which contains sufficient facts and arguments to evaluate the complaint.

2. Complaints must be submitted to the Director, WorkSource Georgia Mountains, and P.O. Box 2278, Gainesville, GA 30503.
3. A log of all complaints received by WSGM/GMRC will be filed on-site. The log will include the name of the Complainant, the name and/or organization of the Respondent, the date of the complaint, and the resolution of the complaint (if rendered).
4. The Director shall investigate the complaints and attempt to resolve the matter through mediation within ten (10) business days of receipt of the complaint.
5. If the complaint cannot be resolved within ten (10) business days, a hearing shall be conducted within sixty (60) days of receipt of the initial complaint. When a hearing is necessary, the Complainant and the Respondent will be given reasonable notification by certified mail of the following information:
 - a. A statement of the date, time and place of hearing, including the name of the impartial hearing officer;
 - b. A statement of the authority and jurisdiction under which the hearing is to be held;
 - c. A reference to the particular section of the Act, regulations, grant or other agreements under the Act involved;
 - d. A statement of the alleged violations of WIOA (This may include clarification of the original complaint, but must accurately reflect the content of the submitted documentation of the Complainant);
 - e. The right of both parties to be represented by legal counsel;
 - f. The right of each party to present evidence, both written and through witnesses;
 - g. The right of each party to cross-examine; and
 - h. The name, address, and telephone number of the contact person issuing the notice.
6. A hearing can be rescheduled at the request of either party for just cause.
7. The hearing shall be conducted by the Executive Committee of the Georgia Mountains Workforce Development Board (GMWDB). The committee may designate staff and/or other parties to serve as the impartial hearing officer. However, no GMWDB or staff member who has been directly involved in the events from which the complaint arose shall serve as a decision-maker in such complaint. If the complaint is against WorkSource Georgia Mountains itself, an impartial person will be secured by WorkSource Georgia Mountains to serve as the hearing officer. Impartial hearing officers shall be chosen from qualified individuals with expertise in the area from which the complaint arises. When an impartial hearing officer is necessary, the WorkSource Georgia Mountains Director will be notified to provide a qualified person. The right to an impartial decision-maker shall not be abrogated by the GMWDB or WorkSource Georgia Mountains. In the age of advanced communication options and to encourage timely responses to all complaints, the GMWDB may utilize e-mail, internet-based meeting facilities, in-person or any other mutually acceptable formats to conduct a hearing.
8. The Executive Committee of the GMWDB, or, its designee acting as a hearing officer, shall have the authority to regulate the course of the hearing, set the time and place for continued hearings, fix the time for filing briefs, and dispose of motions. A final decision must be rendered by the GMWDB Executive Committee or its designee within sixty (60) days of the completed hearing unless all parties are notified by certified mail of the need for additional time. The hearing officer shall issue a written decision which shall serve as the WSGM/GMRC's official resolution of the Complaint. The decision shall include the following information, at a minimum: The date, time and place of hearing, a recitation of the issues alleged in the Complaint, a summary of any evidence and witnesses presented by the Complainant and the respondent; an analysis of the issues as they relate to the facts; and a decision addressing each issue alleged in the Complaint.

9. A complete record of the hearing shall be made and maintained for three (3) years and include the following:
 - a. All pleadings, motions, and intermediate ruling;
 - b. Detailed minutes or mechanical recording of the oral testimony and all other evidence presented;
 - c. A statement of matters officially noted;
 - d. All staff memoranda or data submitted to the GMWDB Executive Committee or its designee in connection with their consideration of the case;
 - e. Findings of facts based on the evidence submitted at the hearing;
 - f. Notification of both parties of further appeal procedures, if applicable; and
 - g. Final decision of the hearing officer.
10. The Complainant shall be informed of the right to request a review of his/her complaint by the TCSG if:
 - a. The Complainant does not receive a decision from WSGM/GMRC within (60) sixty days of the filing the complaint, or
 - b. The Complainant receives a decision unsatisfactory to the complainant

The request for review should be submitted to:

Technical College System of Georgia, Office of Workforce Development

Attn: Compliance Director

1800 Century Place NE, Suite 150

Atlanta, GA 30345-4304

404-679-1371

wioacompliance@tcsge.edu

Once TSCG has received the Complaint form and the local resolution, TSCG shall issue its own resolution on the issue within sixty (60) days of receipt. Any resolution reached by TSCG may be appealed to the US Department of Labor's Employment and Training Administration.

Other Grievances

1. Complaints arising from contracts or vendor agreements with Georgia public schools such as those which pertain to disciplinary actions of teachers or students, grading policy or teacher employment contracts will be handled by the grievance procedure outlined in OCGA §20-2-1160.
2. Complaints which pertain to terms of the contract between the school and the WSGM/GMRC, which may include curriculum and course content, provision of teaching materials and equipment, eligibility, customer selection, or other terms made part of the contract, should be handled by the grievance procedure as presented by the General or Non-Discriminatory Grievance Procedure section.
3. Complaints against the Georgia Department of Labor Career Centers should be filed with the Complaint Specialist or Career Center Manager in accordance with their policies and procedures.
4. Complaints alleging labor standards violations may be filed using the established local and State Grievance Procedures or submitted to a binding arbitration procedure, if a collective bargaining agreement covering the parties to the grievance so provides.
5. Applicants, customers, service providers, bidders, WIOA funded staff or other interested parties alleging violations of the Acts, regulations, sub grants, or other contracts under WIOA (other than discrimination complaints) shall utilize the General or Non-Discriminatory Grievance Procedures in filing a complaint. Individuals shall be informed of this right by the WSGM.

Definitions:

- *Days* – Days are consecutive calendar days, including weekends and holidays. If a deadline imposed under the provisions of this section falls on a holiday or weekend, then the deadline shall be the next business day.
- *Complainant* – A Complainant is the person or entity filing the Complaint.
- *Complaint* – A Complaint is the written document which contains the alleged violation.
- *General Complaint* – A Complaint involving a general, non-discriminatory WIOA violation.

- *Participant* – A Participant is an individual who has been determined eligible to participate in, and who is currently receiving services under a program authorized by WIOA.
- *Respondent* – A Respondent is the person or entity against whom the Complaint is made.
- *Subrecipient* – A Subrecipient is a non-Federal entity that receives a subaward from a pass-through entity (generally from a recipient) to carry out part of a Federal program. This term does not include an individual that is a beneficiary of such a program. A Subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Attachment 5: WSGM Supportive Services Policy

WSGM SUPPORTIVE SERVICE POLICY

Summary of Changes:

Previous Policy Effective June 2017

10/25/18- Determination of need was based entirely on a determination of household income less than 250% of poverty levels. Determination of need has been revised to include the language from the State Policy and Procedures Manual Section 3.4.4.

10/24/19- State removed 35% cap on support funding. Revised to reflect this change.

WSGM has developed a process by which participants who are determined eligible and in need of supportive services may participate in Workforce Innovation & Opportunity Act (WIOA) activities. Federal Law states that supportive service costs should be necessary to enable an individual to participate in activities authorized under WIOA Title I. Eligibility and determination of need for supportive services should be conducted by a case manager, on a case-by-case basis and may be provided to individuals receiving Basic Career Services. Such individuals must be registered as WIOA participants and are subject to performance outcomes.

~~There is a limit on total supportive service expenditures of 35% of each Local Workforce Development Area (LWDA) funding stream, (i.e., adult, dislocated worker, youth), program year total allocation.~~ The following policy applies to participants enrolled under the adult and dislocated worker programs under WIOA which include career services and Individual Training Account (ITA)-based training.

Documentation of Eligibility and Determination of Need for Supportive Services

All supportive services must be approved and recorded in Georgia Work Ready Online Participant Portal (GWROPP) before the participant receives or obtains goods or services. Backdated requests for services will not be approved. A participant may waive WIOA payments (except for Work Experience) if accepting payment would mean the loss of benefits. The participant may request the payment to start at a later date, but may not claim retroactive payments. Advances against future payments are not allowed. The documentation required to determine eligibility for supportive services must be submitted during the intake process and the request for supportive services made before WIOA registration. An exception may be made for customers whose circumstances have changed after enrollment and will be evaluated on a case by case basis by their case manager.

To be eligible for any WIOA financial assistance payments, participant must have been determined WIOA eligible and:

1. Be participating in career services and/or training services;
2. Be unable to obtain supportive services through other programs providing such services; and
3. Must comply with program regulations and policies during the period of training and/or enrollment to continue to receive support service payments.

Determination of Need

- A. Financial/Physical Need: There must be documentation in the participant's case file and/or the GWROPP system that participants are incapable of providing these services for themselves. Documentation may consist of:
1. Low income verification
 2. Receipt of federal or state public assistance
 3. Receipt of UI benefits
 4. Documentation of skill upgrading that would lead to employment in a local or state in-demand occupation
 5. Documentation of lack of employment or underemployment
 6. Separation from employment notice
 7. Transportation distance to attend training
 8. Birth certificates of children receiving childcare
- B. Resource Coordination: There must be documentation that supportive services are not available from other state or federal grant programs. There must be analysis of all federal/state/local resources available and how they are being coordinated. For example, WSGM will document the total basis of need considering UI, Pell, Hope etc., or other instances of federal/state/local resources available, to determine how resources are being coordinated. Examples of acceptable documentation:
1. Participant time sheets
 2. Income determination
 3. UI records
 4. Supportive Services Request Form

Allowable Supportive Service

Allowable supportive services provided during training include, but are not limited to:

1. Transportation
2. Dependent Care
3. Health Care and Medical Services – These services are of a one-time nature, such as a physical examination, prescription drugs, prescription eyeglasses, immediate dental care, and mental health care which are needed to enable an individual to participate in any reemployment activity
4. Legal Services: Cost for legal services may be covered when the law, courts and related situations interfere with the participant's ability to continue training or seek employment
5. Out-of-Area Services: A participant may be provided assistance with costs incurred for out-of-area training or other activities (such as travel to take a licensing test) that are documents in case notes. Lodging, per diem, mileage and other reasonable and necessary costs may be covered. When calculating the level of assistance, providers may opt to cover actual costs, the transportation daily rate or use Federal mileage, lodging and per diem rates and cover any amount up to that level based on available budget and other sources of assistance

Support Service Request Form: Each participant requesting supportive services will complete a request for support service form. The WIOA career advisor will determine the basis of need and sign off on the justification for the amount of support that is necessary and reasonable to complete WIOA activities. This documentation should be collected and included in the participant's case file. WSGM finance will also maintain records to monitor the yearly cap limitations.

All participants' Supportive Service expenditures must be submitted, utilizing the attendance forms; dependent care forms; or other methods required by WSGM to the WSGM Case Manager for approval and for processing.

- a. Customers must attend class or clinical placement to receive any transportation support payment for that day. Attendance forms are completed by the customer and signed by the instructor(s). The attendance form is submitted to the Case Manager on a bi-weekly basis and maintained in the customer file.
- b. The Case Manager verifies the actual costs that are being submitted for payment and reviews previous authorizations in the participant record to avoid duplication of services or double billing of the item.
- c. Payments will be made directly to the participant as a reimbursement. Payments will not be made for sick days, holidays, days when no class is scheduled, days when class has been cancelled, or for internet classes. Customers must be making satisfactory progress (a minimum of 2.0 on a 4.0 scale each semester or a minimum of a C on an A, B, C, D, F scale or 70% on a 100% scale) and cooperating with instructional process to continue to receive support payments. Support payments will not be made for classes taken for the second time when supports were paid during the first attempt.

Dependent Care

If dependent care is not otherwise available from Department of Family and Children Services (DFCS), or other funding sources, WSGM may reimburse the cost of care for dependent children up to a maximum of \$225 per week per family, excluding late fees.

Dependent care is classified as one or more of the following: child or dependent under age 14 who is receiving 50% or more of their daily living needs from the participant; or dependent, regardless of age, which requires assistance due to disability or medical condition or documented care need.

This assistance is available while the participant is enrolled in basic career services or an ITA training service. Assistance is available when the individual is scheduled and/or commuting to training activities. Assistance may also be available for children during times when school is not in session. Funds from other sources, such as TANF, may be combined with WIOA funds with written approval by the WSGM Case Manager. In those instances, WIOA funds may only be used for those expenses not covered by the other funding source. For participants receiving TANF benefits, service providers must document that the participant is not receiving dependent care benefits from TANF before providing dependent care assistance through WIOA.

Participants are encouraged to use licensed dependent care providers whenever possible.

Reimbursement will be based on the cost of the services and contract requirements up to the maximum dollar amount based on the county the customer resides in: Dawson, Forsyth, Hall, Lumpkin will be reimbursed at a max of \$110 per child per week. All other counties will be reimbursed at a max of \$90 per child per week. If not licensed, the service must be provided by a dependent care provider who cares for children outside of the participant's home and will be reimbursed at a rate of \$15 per child per day.

Dependent care costs will be reimbursed to the participant. Payments are based on receipts from the dependent care provider and include verification of a child's attendance record and verification of class attendance by the participant. Payments will be made biweekly and will depend on timely receipt of the specified documentation.

No reimbursements will be made for registration or late fees incurred by participants.

Transportation

Eligible participants will receive \$10 to ensure mobility between home and location of training or practicum/clinical site. Those traveling over 80 miles round trip will be eligible to receive \$15 as long as need is documented by case manager in file. Transportation assistance is not available if provided by another agency such as DFCS.

Additional Allowable Support Services:

Allowable supportive services provided after training in order to obtain employment include, but are not limited to:

1. Tools, work clothing, and boots/shoes required for employment
2. Bonding and liability insurance for employment
3. Drug testing required by employer
4. Financial counseling, and
5. Auxiliary aides and services necessary for persons with disabilities.

For participants enrolled in programs such as HVAC, automotive technology and automotive collision, which require expensive tools for training as well as employment, supportive services may be used to supplement tool purchase costs during training in the event the participant's training ITA funds are exhausted by tuition, books, fees and other training costs. This determination will be made on a case by case basis by the WSGM Director.

Other Requirements and Policies

A participant continues to be eligible for support services only as long as he/she is active in the program. Failure to participate fully, without good cause, will result in termination of assistance.

During the assessment period individual needs are identified and a plan is developed and documented in the Individual Employment Plan (IEP) for support provided by WSGM, DFCS or other programs. To maximize the support available, WSGM will actively promote coordination with organizations to provide supportive services at no cost to the program or the participant. These services could include assistance in housing, legal problems, financial planning, dental/medical care, mental health, and other areas.

No supportive service payments can be made until the day after a participant's enrollment / orientation.

Unallowable Supportive Services

Payments are not allowed for titled or deeded items or when recovery of the expense is anticipated. Such items include:

1. Rent deposits or housing deposits
2. Mortgage payments
3. Car payments
4. Purchase of vehicles
5. Fines
6. Late Fees

Attachment 6: WSGM Performance Measures

LWDA 2 Negotiated Performance Goals

Adult	PY19 Goal	PY20 Goal
Q2 Entered Employment Rate	83%	
Q4 Entered Employment Rate	86%	
Q2 Median Earnings	\$6,700

WSGM has not yet negotiated performance for PY20. PY19 negotiation did not include skills gain, employer measure, or youth median earnings goals.

Attachment 7: ETPL Provider Application Evaluation Criteria

**PROVIDER APPLICATION
EVALUATION CRITERIA
WSGM
To be Completed by WSGM Staff Only**

NAME OF PROVIDER: _____

TRAINING PROPOSED: _____

RATER: _____

DATE: _____

I. APPROPRIATENESS/OUTCOMES

		Yes	No	N/A
1	Is (Are) the proposed training program(s) in a growth occupation identified in the application, or has the provider submitted documentation of a need for proposed training?			
2	Does the provider site indicate a positive learning atmosphere with training curriculum and equipment that are up-to-date and considered state-of-the-art?			
3	Does the tuition include costs for supplies, etc., as part of the total cost?			
4	Job search assistance included?			
5	Do references of both participants and employers indicate that completers attain marketable job skills after training?			
6	Will training lead to a certificate, diploma or degree?			
7	Are training schedules on-going?			
8	Is the cost in line with similar programs provided throughout the local area?			

II. PAST PERFORMANCE

		Yes	No	N/A
1	Does the provider have previous successful completion rate, defined as meeting or exceeding WSGM goals for the previous 12 months?			
2	Does the provider have previous successful experience in placing individuals in training related occupations classified as unsubsidized employment defined as meeting or exceeding WSGM goals for the previous 12 months?			
3	Does the provider have previous successful unsubsidized employment in training related occupations experience, defined as meeting or exceeding WSGM goals for the previous 12 months?			
4	Does the training program(s) result in an employment at a wage necessary to attain self-sufficiency?			
5	Will placement occur in full time positions with potential growth and benefits?			
6	Does the student loan default rate exceed 25%?			
7	Is the provider listed on current Federal, State or local debarment/suspension lists?			

III. CAPABILITY OF TRAINING ORGANIZATION

		Yes	No	N/A
1	Has the organization been in operation for more than 6 months and submitted evidence of financial stability, i.e., sound financial statement, audit report, tax return?			
2	Has the curriculum been certified by an appropriate accrediting agency?			
3	Has the organization's programs been certified by NPEC (if applicable)?			
4	Has the provider submitted a signed debarment statement?			

IV. BONUS

		Yes	No	N/A
1	Does the provider have experience with training special populations, such as disabled, homeless, low income, individuals with language or cultural barriers?			

V. RANKING INFORMATION

(0 = Not Acceptable, 1 = Weak, 2 = Average, 3 = Good, 4 = Excellent)		Ranking	Weight	Total
1	Appropriateness/Outcomes		2	
2	Past Performance		2	
3	Capability of Training Organization		1	
4	Point		1	
5	Total			

Maximum Score= 21

Minimum Score Required for Consideration = 12

Comments: _____

Attachment 8: WSGM ITA Policy

Individual Training Accounts

An individual determined eligible for WIOA-funded training services may select an eligible training program/provider from the Georgia Mountains Workforce Development Board/STATE approved ETPL in consultation with a WSGM representative located at WSGM Office located at 1856 Thompson Bridge Rd. Gainesville, GA 30501 Suites 2-4 and 1F.

Policies:

1. Training must be in occupations identified in the local WIOA plan as growth and/or demand occupations or documentation of employment prospects for areas not listed in the Plan must be provided. Growth and Demand Occupation lists are subject to change at any time due to fluctuating economic conditions.
2. Training must result in an employment wage sufficient to maintain or increase income.
3. ITAs may be utilized for expenses related to training, including but not limited to the following: books, tuition and fees, general supplies, tools, uniforms and shoes, certification, licensing, testing fees, drug testing for entrance into training, medical requirements for training entrance, and such items specifically required for a course or program. The following items are not provided by ITAs: Certain WSGM computers and related equipment, computer program software, peripherals, electronic and wireless equipment unless approved on a case-by-case basis by WSGM.
4. Funding limitations will be as follows:
 - a. Up to \$6,000 in training costs, excluding support may be expended for each participant for the first year (three consecutive semesters) of training assistance.
 - b. For training assistance that extends beyond one year, total training costs may not exceed \$10,000 (excluding support.)
 - c. For the following programs: Nurse Practitioner MS, Bachelors of Science Nursing, Occupational Therapist, Physical Therapist, Physical Therapy Assistant AAS, Dental Hygiene AAS, and Health Care Information Technology AAS, funding for the first year of training assistance may be up to \$7,000 and for training that extends beyond one year of assistance, total training costs may not exceed \$14,000. An increase to these limits requires WSGM case manager approval for each participant. (Effective from July 1, 2017 forward with revisions)
 - d. The total cost of training may exceed the available WIOA funding limitations however customers must provide evidence that additional financial support is available to cover the total training cost. In a case where the total cost of training exceeds the available WIOA funding limitations, customer funding will be utilized until the remaining training amount is within local area funding limitations. WIOA supportive services may be paid during the time in which the customer funding is being utilized.
 - e. Up to \$11,000 excluding support for a specialized Welding Program. (Effective 7/1/2014)
WSGM does not assist with training that is outside the contiguous United States of America.
5. Programs should not exceed 104 weeks (two years). Exceptions to this policy may be approved on a case- by-case basis and requests should include evidence that financial support is available during

extended training periods.

6. In addition: WSGM assists with one (1) program of study with limited exceptions:
 - a. Stackable Credential: Part of a sequence of credentials that can be accumulated over time to build up an individual's qualifications and help them to move along a career pathway or up a career ladder to different and potentially higher-paying jobs (Customers must reapply and be found eligible and suitable; Maximum training dollar limit of \$10,000 per individual for all WSGM training combined will not be exceeded)
 - b. Programs that require a prerequisite, e.g. Air Conditioning Technology with Commercial Refrigeration, Licensed Practical Nurse, and Health Care Assistant Certificates (Total training must fall within the WSGM length and cost of training limits)
 - c. A participant may take no more than two approved training programs identified under the Career Ladder Training Program. They must fully complete the first program before being considered for advancement to the next program. Completion, for the purposes of Career Ladder Training, is completion of training, all tests required per training provider curriculum, and receipt of credential(s). Also, participants are not required to continue training with the same training provider after completion of the first program. They may elect to continue additional training at another approved training program/provider.
7. Customers applying for training services that have recent (within last three years) training and attainment of a recognized credential in a growth and demand occupation may not be considered to be "in need of training" services. (Exceptions require WSGM Director approval)
8. Changes in Training Provider are not allowed. (Any exceptions, as noted under Career Ladder, require WSGM Director Approval)
9. An upgrade to a degree program is not permitted due to the length of program guidelines, available funding, and Individual Training Account (ITA) requirements. A downgrade from a degree or diploma credential level program, or lateral change of program within the same credential level, may be allowed based on documented statements or evaluations by the Training Provider, and the WSGM Case Manager; or in case of documented medical condition(s).
10. A customer cannot change their major, program of study or add/drop a course without prior approval by their WSGM Case Manager. In the event of withdrawal from/failure of a course or program, WSGM will not provide the funds to re-enroll in that course at a later date.
11. All customers must maintain a full-time training status as determined by the training provider. Exceptions to this policy may be approved on a case-by-case basis at the case manager's discretion. Customers who can provide documentation from their employer that they are working 20 or more hours a week may be eligible for a Full-Time status exemption at the case manager's discretion. Exemption will require documentation of hours worked by employer and verification from the training provider that the training program can be completed within the 104 week (two year) time period.

12. In general, all training programs must be within a reasonable commute (30-40 miles one way) of the WIOA local area. Out-of-the-area training programs that are not within commuting distance to the WIOA local area may be approved on a case-by-case basis. All approved training must be located within the contiguous United States. Lodging may be provided by some training providers (CDL of GA, LLC, Daly's Truck Driving School or Georgia Driving Academy) either free or at a reasonable cost. WIOA funding may be provided for lodging if the customer lives outside of a reasonable commute (30-40 miles one way) or reliable transportation is not available.
13. All potential training customers must apply to the potential training site and apply for all applicable sources of financial aid. Upon application to the WSGM for training services, applicants must provide proof of acceptance to the training provider and financial aid award/denial letter, if applicable. All customers who apply for training services must complete a Customer Financial Summary and provide information that will explore all available sources of financial aid (i.e., Pell, HOPE Grant, HOPE Scholarship, TANF) to avoid duplication. The enrollment agreement should detail all loans or personal funds that are included to cover the total cost of training as a means of cost analysis. If it is determined through the analysis of the cost of attendance that the total cost of training exceeds the amount available through HOPE and WIOA funding, then PELL funds may be utilized by the participant for living and other appropriate personal expenses during the training period. Provision of WIOA funding for training shall be limited to individuals who are unable to obtain other grant assistance for such services, or who require assistance beyond the financial aid available under these grant assistance programs.
14. WIOA funding may be provided for college level and post-baccalaureate instruction only if all of the following conditions have been met:
 - a. The customer must be accepted into a certificate, diploma, or degree program and the course of study must be occupation-specific (i.e. radiology technician, accounting, STEM teacher certification or a customer is a Registered Nurse seeking a graduate degree in Nursing to fill a vacant Nursing instructor position at a university or technical college.) No funds shall be provided for general academic programs (i.e. General Studies, Bachelors of Business Administration, Bachelors of Art, etc.).
 - b. Total course of study will take no longer than 104 weeks (2 years) to complete and be a certificate, diploma, or degree program. Exceptions: Extended critical shortage health care curricula lasting 3 years will be reviewed and approved on a case-by-case basis, i.e. Registered Nursing, Nurse Practitioner, Occupational Therapist.
 - c. The customer must demonstrate that he/she has the financial resources to attend long-term training.
15. Continuing Education and other similar courses may be approved if the following conditions apply:
 - a. The customer must have a specific occupational goal.
 - b. The customer must have a work history or educational background that relates to the occupational goal.

- c. The customer must present evidence describing how the proposed training will increase his/her employment marketability.
- 16. Customers accepted on a provisional basis may receive assistance, but certain restriction and requirements apply and are reviewed on a case-by-case basis. If assistance is approved, provisional classes must be taken at the beginning of the training program and completed as soon as possible.
- 17. ITAs will not be used for payment of late fees caused by customer error or delay. The customer will be responsible for these fees, as he/she is responsible for other fines or penalties.

ITAs will be issued for training providers/programs that are currently on the State of Georgia Eligible Provider/Program List and with whom WSGM has a signed WIOA Training Provider Agreement. WSGM office maintains a list of the providers with executed agreements through the Georgia Mountains Regional Commission office in Gainesville. This list is updated as needed.

ITA Procedures

Full-Time Status Exemption

Students who are working 20 or more hours per week and can complete their program within the required 104 weeks or less may be eligible for a full-time status exemption. Students must provide documentation of employment each semester before a tuition voucher is issued. Students must also provide documentation from the advisor that the training can be completed within the required time period. Any deviation from the agreed upon schedule must be approved by both the advisor and case manager. If a student who previously received the exemption due to employment does not qualify for the exemption the next semester the requirement to attend full-time status as defined by the training provider will apply.

Tuition Payment

Tuition vouchers will not be issued more than three weeks after a semester or training program begins. Any exceptions must be discussed with the Adult & Dislocated Supervisor and documented by the participant's case manager. WSGM is not responsible for costs incurred before enrollment.

Program Cost higher than WSGM limits

When training cost exceeds the limits of WSGM assistance, WSGM will not assist with the cost of training (tuition, fees, books, required training supplies and exams, etc.) until the remaining cost of the program falls within WSGM limits.

Until the case manager determines that the remaining training costs are within limits, the customer may receive supportive service assistance only.

- For the Dental Hygiene Associate's Degree program at Athens Tech, WSGM may not assist with the cost of training during the first 2 semesters of the program.
- For the Dental Hygiene Diploma program at Lanier Technical College, WSGM may not assist with the cost of training during the first semester of the program. This program is changing to an Associate's Degree program. WSGM may not assist with the cost of training during the first 2 semesters of the program for the Associate's Degree.
- For other high-cost technical college programs and college programs, the case manager will determine when WSGM can begin assisting with training costs.

Attachment 9: WSGM Priority of Service Policy

EXCERPTED

ADULT / DISLOCATED WORKER WORK STATEMENT GEORGIA MOUNTAINS WORKFORCE DEVELOPMENT BOARD WORKSOURCE GEORGIA MOUNTAINS

C. PRIORITY OF SERVICE / SERVICE PRIORITY FOR INDIVIDUALIZED SERVICES AND TRAINING SERVICES

Priority for adult services must be given to recipients of public assistance or other low-income individuals, with added priority for individuals who are basic skills deficient. Priority applies regardless of funding levels.

Individualized career services and training services must be given on a priority basis, regardless of funding levels, to:

- Public assistance recipients and other low-income adults; and
- individuals who are basic skills deficient.

Veterans under WIOA § 3 (63)(A) receive priority of service as described in the Jobs for Veterans Act (38 U.S.C. 4215 (2)). Veterans and eligible spouses of veterans who otherwise meet the eligibility requirements for adult programs must receive the highest priority for services. TEGL 3-15 references TEGL 10-09 regarding order of priority for veterans and eligible spouses. Priority must be provided in the following order:

- First, veterans and eligible spouses who are also recipients of public assistance, are low-income individuals, or who are basic skills deficient. Military earnings are not to be included as income for veterans and transitioning service members.
- Second, individuals who are not veterans or eligible spouses who meet WIOA priority criteria.
- Third, to veterans and eligible spouses who are not included in WIOA's priority groups.
- Last, to individuals outside the groups given priority under WIOA.

While Veterans receive priority through WIOA services, LWDAs and applicable services providers must have a referral process in place for directing Veterans with Significant Barriers to Employment to the Disabled Veterans Outreach Program to ensure the most effective provision of services.
